

Gelband Residence

Jay Road

JB Fieldworks worked hand in hand with the builder/owner to develop a Landscape Master Plan that blends the shipping container home into its uniquely sloping site.

After careful analysis of the site and the desired program, a series of outdoor rooms were designed to compliment indoor spaces and thoughtfully break-down the long narrow site. A strong perpendicular arrangement of site elements acts as a contrast to the linear nature of the shipping containers and the narrow site.

Paving and plant material were chosen to harmoniously blend with borrowed views of the dramatic Flatirons Range.

Location:
Boulder, CO

Client:
Mark Gelband

Scope:
Site Analysis
Concept Design
Landscape Master Plan

Completion Date:
2016
