

# **Educator Dashboards Update**

Tennessee Attendance Supervisor Conference  
April 23, 2015

# Educator Dashboards

- Tool for all educators to more quickly access robust data and view it in a user-friendly format
- Includes data from local student information systems (SIS) combined with additional state-provided data
- Accessible by teachers, counselors, school leaders, and district central office staff
- Designed to promote efficient use of data in driving educational decisions

The screenshot shows the Educator Dashboard for Yolanda Argueta. The dashboard includes a header with the Tennessee Department of Education logo and navigation options. Below the header, there is a search bar and a dropdown menu for the current student, Yolanda Argueta. The main content area displays a table of student data with the following columns: Student, Grade Level, Designations, Year To Date Attendance, Number of Days Absent, Number of Unexcused Days Absent, School Code of Conduct, # Grades Below C, and Grades Falling ≥ 10%. The table lists 10 students with their respective attendance percentages, days absent, and grades.

# Training Information

- 8 regional trainings offered over the summer
- Districts are encouraged to send one instructional lead and one technical lead
  - Instructional: Focus on dashboard functionality and instructional use
  - Technical: Focus on supporting dashboard use, troubleshooting, and key support contacts
- Dates & Times to be announced in invitations in upcoming month

# Important Clarifications

- EIS is not going away this year
- State-hosted districts will be integrated first and the state is working on a strategy to load data from non-state-hosted districts
- This is a marathon, not a sprint
