

Expanding onto this property is a quantum opportunity for Unbridled to be fully operational 12-months of the year, and to activate multiple revenue streams to solidify the structure that will provide the funding needed to assure our growth and sustainability for decades to come.

On this beautiful property, Unbridled will be able to keep our gates open year-round to share the stories and wonder of our Sanctuary Horses ... along with accommodating:

Special Events, School Trips, Educational Programs, Read To The Rescues, and Internships – and to utilize our experience and skill to rescue and retrain horses for adoption, host clinics, board and lease horses, offer liberty training and riding lessons, camps for kids, and much more.

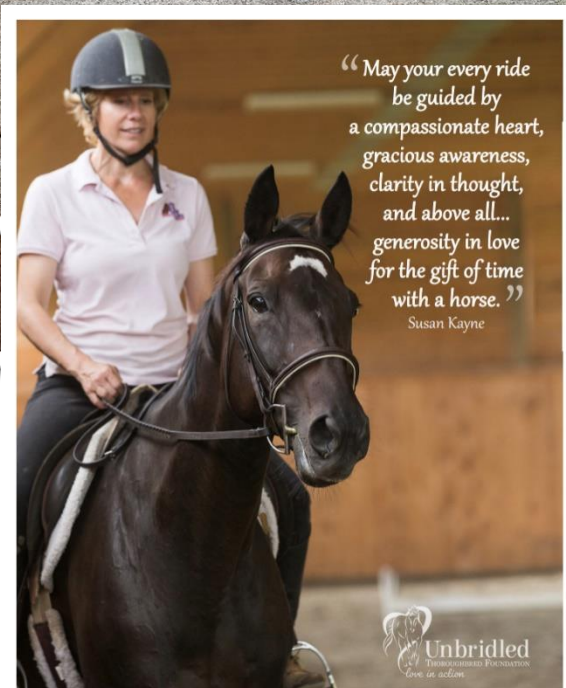

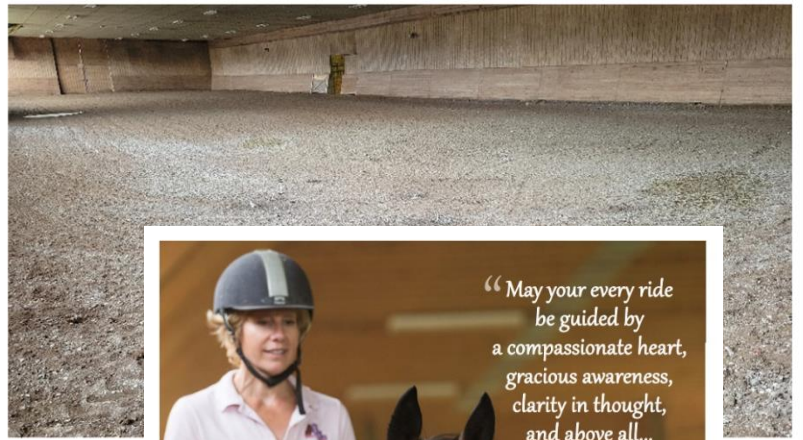

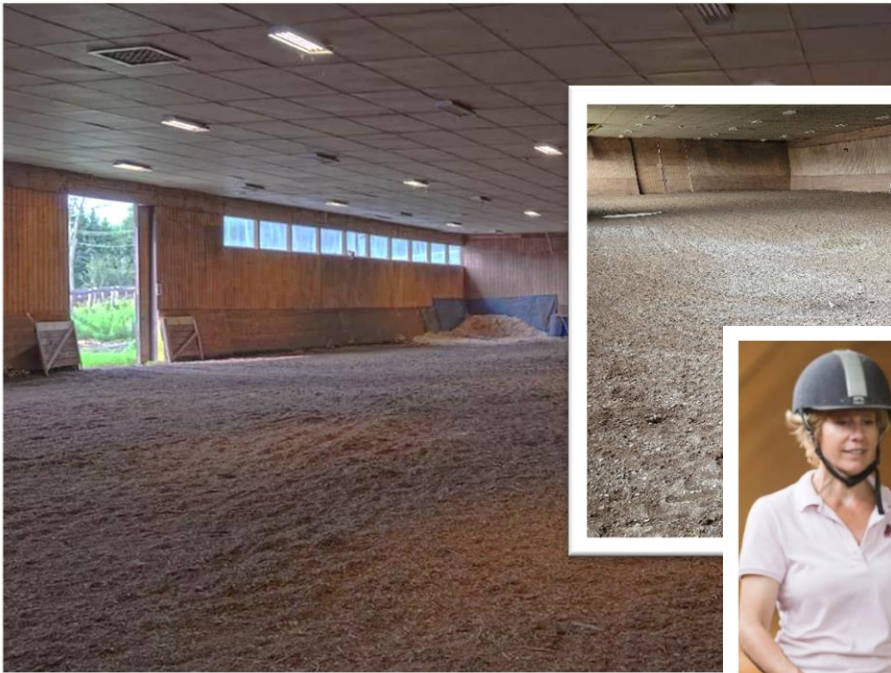

A Welcome Center to greet donors, visitors, and sponsors throughout the year.

This spacious structure overlooks the outdoor riding ring and is easily accessible from the main driveway. It will house:

- A Gift Shoppe & Offices
- The history, mission, and vision of Unbridled
- The individual stories of The Horses Of Unbridled
- A Donor Wall to recognize our supporters
- A dedicated space to teach equine-inspired academics, animal ethics, civics, humane education, media arts, and all of the workshops and educational activities that we offer and provide for our community.

An inviting setting and Stable complete with feed and tack rooms, lounges, and rest rooms, attached to a large indoor arena to accommodate events year-round.

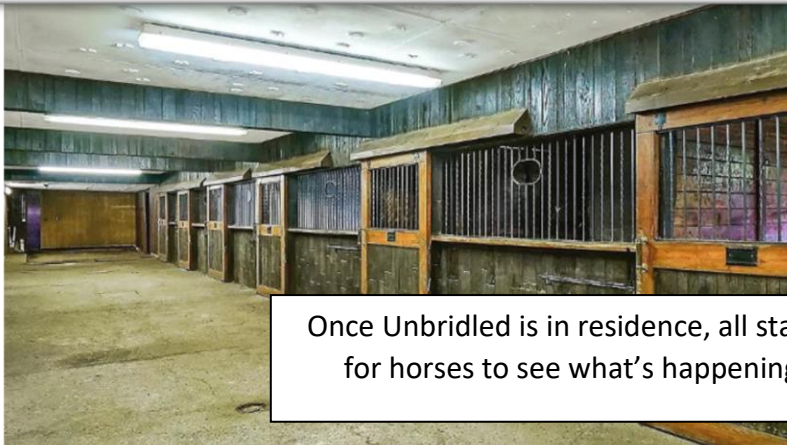

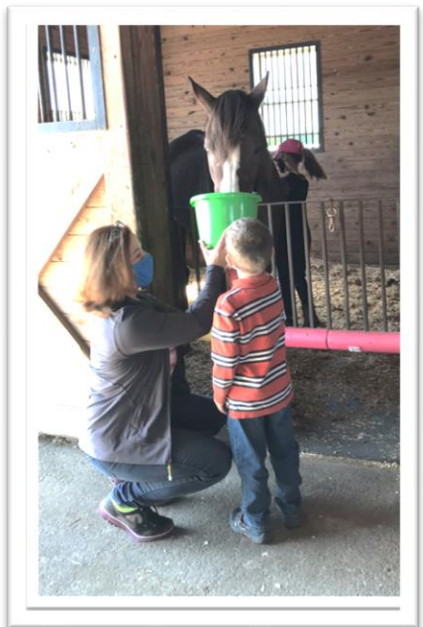

“May your every ride
be guided by
a compassionate heart,
gracious awareness,
clarity in thought,
and above all...
generosity in love
for the gift of time
with a horse.”
Susan Kayne

Every day we receive phone calls for riding lessons, emails from prospective adopters, adults looking to board, and owners seeking retirement or retraining services. There is no place in the community to meet these needs with the experience, integrity, and compassion of Unbridled.

60 Spacious Matted Stalls – Shelter For Every Horse

Once Unbridled is in residence, all stalls will be fitted with gates to allow for horses to see what's happening in the aisleway and visit at will.

A fully fenced outdoor riding ring, several paddocks with sheds and shade trees.

An 8-stall intake building that will allow us to quarantine new and ill/injured horses and give them adequate time to heal and/or acclimate to their new home before joining the others.

Several outbuildings are ready to provide:

- Storage of bedding, hay, and feed – allowing us to purchase in bulk and maximize discounts on these necessities.
- Storage of equipment to keep it out of the weather.

Unbridled requires 24/7 attention and living on the property is a must. Existing housing on the property will provide for equine caretakers, interns, and working students.

Naming Opportunities
