Hamilton-Madison House (HMH) is seeking a Part-time Psychiatrist who will be responsible for ensuring that clients in the outpatient mental health clinic, with priority focus on those in the CONNECT program, receive appropriate evaluation, assessment and treatment. HMH outpatient mental health clinic is a clinic identified by the Department of Health and Mental Hygiene (DOHMH) as a high need area. As such, it has been selected to participate in the CONNECT Demonstration Project to provide rapid access to mental health services in a more flexible and holistic way with the community and the whole person outside the clinic walls and beyond the traditional doctor/therapist-patient interaction.

**Minimum Qualifications:**
- Doctorate Degree in Medicine
- Board Certified or Board Eligible in Psychiatry preferred
- NYS Professional Medical License and DEA License required
- Experience in treating multi-ethnic and underserved populations, including those who are justice-involved
- Knowledgeable in EMR systems
- Training in medical and substance abuse treatment options and a working knowledge of community resources and support networks
- Bilingual English and Asian language preferred, but not required
- Excellent interpersonal, verbal and written communication skills to work with a multidisciplinary team

**Responsibilities:**
- Ensure that all behavioral health system clients receive appropriate evaluation, diagnosis, treatment, medical screening and evaluation whenever indicated and that all care is appropriately documented in the medical record
- Assist in providing treatment guidelines with the Clinical Management team
- Follow the formula for medications that have been established for use in treatment milieu
- Assist in supervision, staff development, and in-service training as needed
- Provide direct supervision for medical staff and psychiatric nurse practitioner trainees as necessary
- Meet and evaluate clients in an office-based setting, virtually, or in a community setting in order to follow up on acute, chronic, urgent and emergent medical conditions
- Provide clinical oversight and management of all Behavioral Health cases
- Provide psychiatric evaluation, crisis intervention, treatment planning to behavioral health clients
- Facilitate appropriate referrals and client advocacy
• Participate in special projects and research studies to further expand the programs’ menu of services
• Participate in clinic team meetings, in-service training and other in-house clinical conference
• Facilitate a team approach toward treatment; train, equip, and educate other staff members concerning the culture of care of the agency; and monitor, collect and evaluate data
• Provide workshop/training seminars and other training activities to staff and interns as needed
• Develop and maintain partnerships with other organizations on service delivery research, community services and outreach efforts
• Maintain medical records documentation according to HMH, OMH, OASAS policies and procedures
• Meet productivity and quality assurance goals as set forth by agency
