

THE TOWERS OF SAURON

The purpose of this illustration is to show the various 'towers' of the City of London. In particular, the Shard Tower is highlighted as it has a striking resemblance to the Tower of Sauron. It is the encrypted motif of the unfinished truncated pyramid of the Luciferians with the All Seeing Eye that sheds 'illumination' upon the world, supposedly. What is most prominent of these hidden geometric configurations associated with the Prime Meridian at the Royal Observatory in Greenwich is that 1) they are 'hidden in plain sight' 2) have Fibonacci ratios. 3) they clearly correspond to astronomical alignments, most notably with the constellation LEO. These ley-lines directly extend to the 2 most important Royal Residences of the British Monarchy, Buckingham Palace and Kensington Palace at a 33 degree angle heading from due West. The Luciferian powers behind the rulership of planet Earth pay homage to their Fallen Angel Lucifer in their architecture, financed supported by their banking system. They control the royal monarchies of the world that have selected genetic bloodlines tied to certain ley-lines, sacred geometry and astronomical alignments.
