

To whom it may concern,

Tiffany Dwyer began caring for my two children, in July 2014. I had just pulled both of my children out of a very bad day care situation, and needless to say, I was very apprehensive about trying to find someone new to take care of them. As soon as I spoke with Tiffany on the phone, my fear immediately began to go away. We set up an appointment to meet with her and as soon as we walked in the door, I could tell that Tiffany was different from any other day care provider I had spoken with. Both of my children were immediately comfortable in her home and acted like they had been there several times before.

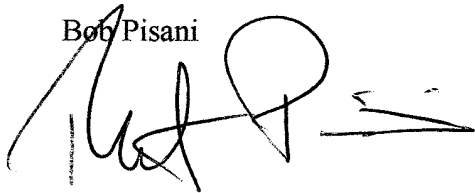

My children love playing and learning at Tiffany's Tiny Tots Daycare and now our refrigerator is filled with artwork from school. It gives me such joy to know that my children are not just being well taken care of but are truly loved by Tiffany.

Tiffany has been nothing short of a Godsend for my children and my family. She truly cares for not only my children but for all the children that come to her. Her love of children and family values shines through in all that she does. In these times, a lot of teachers are afraid of any contact with children, but Tiffany always has a big hug and a caring hand for any sick or weepy child who needs it.

My family and I thank God every day for bringing us to Mrs. Tiffany. I don't know what we would do without her.

Thank you, Tiffany, for everything that you do and are!

Bob Pisani
