Junior Land Steward Program

Saturday, July 6 1:00pm-2:00pm
Visitor Center

Looking for a great way to get your child interested in land conservation? Ranger Darren is enrolling kids to become Junior Land Stewards this summer, where they'll "adopt" a section of trail, perform basic land stewardship, and email status updates! Activities will include removing debris, picking up trash, reporting dangerous conditions, plant and wildlife observations, and more!

*This program meets only once for orientation but requests kids to visit their trail once every two weeks through August 18. Volunteer parking passes will be provided to parents for the duration of the program. Suggested ages 5-12, and must be accompanied by an adult. **Registration is required** by signing up at the park office or emailing borderland.park@state.ma.us. If unable to attend orientation, alternative arrangements can be made.
