

PLEASE TAKE NOTICE that Homeland Towers, LLC (“Homeland Towers”) will perform a balloon test at 43 Deforest Lane, Beekman, NY (the “Site”), in connection with a proposed 150’ tall wireless communications facility (the “Facility”) on Union Vale town owned property. The balloon test will consist of an approximately four-foot diameter brightly colored balloon being floated on a tether line to a maximum height of 150 feet above ground level.

The balloon test will be conducted on Saturday, April 13th, 2019 at the Site, or in case of inclement or windy weather then each consecutive day thereafter until the balloon test is completed. The balloon test will commence at approximately 8:00 am and continue for approximately 8 hours weather permitting. The purpose of the balloon test is to establish the approximate location and height of the Facility so that computer generated visual renderings can be prepared by Homeland Towers from various viewpoints.

Please contact the Union Vale Town Clerk should you have any questions in advance of the balloon test by phone or email: Andrea Casey, 845-724-5600 or Townclerk@unionvaleny.us.

You may also contact Homeland Towers representative with any questions: Raymond Vergati, 203-297-6345 or rv@homelandtowers.us.
