

287" Wide by 107" High TS32 Frame with Graphic Wrapped Around the Frame

287" Wide by 107" High TS32 Frame with Graphic Wrapped Around the Frame  
The graphic is wrapped around the frame and fixed in the back of the frame.

Frame installation - The TS32 frame is installed on "L" brackets

The TS32 extrusions were bent in a machine shop to go around the pillar in the middle of the hallway.

Another view of the 287" wide x 107" high TS32 frame.  
The graphic will be fixed and stretched on the side of the frame.

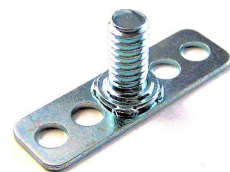

The finished result was stunningly beautiful and the client was extremely pleased.

Another spectacular result for this framed fabric installed in a new resort in Hawaii.

This kind of frame installation is perfectly suited for corporate lobbies, museums, exhibitions hallways, Board Rooms, etc...
