## TROUBLE SHOOT: EntryThingy

- If you are experiencing stalling, or failing uploads, try the steps below.
  - Do not upload images to EntryThingy that you have downloaded from Zapp or similar.
  - Recommended browsers are **Chrome** or **Firefox**.
  - Make sure you have the **newest browser version** installed on your computer.
  - If your upload completes but your JPG image does not display properly, be sure you have set the color space to **RGB / sRGB**.
  - **Heavy uploads traffic**. Uploading during a busy time may take longer to upload your files.
  - Check your **Internet connection**. Uploads may take a long time because your connection is too slow or unstable.
  - **Disable anti-spyware, anti-virus**, or similar software.
  - **Refresh** page. **Reboot** your computer.
  - Plug computer directly into your **modem with an ethernet cable**, rather than connecting wirelessly through a router.
