

Dear Mathematics Teacher,

These 8<sup>th</sup> grade OAT/OGT Weekly Review Quizzes have been developed to provide you with 47 double-sided weekly reviews. Each review contains 7 multiple choice questions and 1 extended response question. Each quiz has at least one question from each standard and shows the correlation to the standard and benchmark.

The weekly reviews are organized as follows:

- Section 1: 15 reviews (labeled C) based on the 7<sup>th</sup> grade indicator statements for use at the beginning of the school year
- Section 2: 20 reviews (labeled D) based on the 8<sup>th</sup> grade indicator statements
- Section 3: 10 reviews (labeled D) with 2 reviews based on each standard
- Section 4: 2 reviews (labeled D) based on the formula reference sheet
- Section 5: Complete answer key

Rather than labeling our review quizzes by grade level, we have chosen to use letters to associate a grade level. It is our hope that by using letters, you will be better able to use weekly reviews from other grade levels without the students knowing it.

**Grade Level and Letter Correlation:**

- Grade 5 – A
- Grade 6 – B
- Grade 7 – C
- Grade 8 – D
- Grade 9 – E
- OGT Review – F

There are numerous ways these Weekly Reviews may be used:

- Give them weekly as in class reviews or quizzes.
- Use them in small groups where each student completes the quiz and then discusses the answers with 2 - 3 other students.
- Use them as a review assignment each week.
- Keep the graded reviews in an OGT notebook to use at a later date or for accountability purposes.
- Use them as another intervention tool and for summer OGT preparation.

**For each set of quizzes purchased, copyright permission is granted to one classroom teacher to make copies for his or her students.**

**Feedback**

Wolfson Educational Services is continually looking for ways to improve our materials. Please contact us with any ideas.
