

There are a lot of practical and easy to use resources in this book. See the graphic below for how they all work together. First, you review the Coaching Basics and create a Coaching Binder (Part 1) to keep track of all of your coaching documents and resources. Then, you use Implementation Plans (Part 2) and gather data during Group Coaching (Part 3) to better support teachers. Next, you use the data to identify teacher needs on the Coaching Focus Folder to provide Focused Coaching (Part 4). Finally, you analyze your Coaching Effectiveness (Part 5) and identify Successes and Next Steps (Part 6) to improve as a coach or instructional leader. OR, just flip to the individual tabs that will meet your needs. Check out the ready to go resources in the Resources Tab, including the Coaching Cards.
