

ST. MARY'S SCHOOL ALUMNI SPOTLIGHT

"Nikolene Miller"

Nikolene Miller, daughter of Dave and Mary Miller, is in our spotlight this month. After graduating from St. Mary's and then Tomahawk High School, Nikolene went on to Augsburg College where she majored in biology and minored in chemistry and psychology. In addition to making the Dean's List, playing volleyball all 4 years, being the volleyball team captain and being a member of the Tri Beta Honors Biology Society, she also volunteered for many organizations in the Twin Cities area. In 2014 she was accepted to St. Catherine University Master of Physician Assistant School. She is currently completing her thesis on skin cancer and how media affects young women's outlook on sun safe behaviors. She will graduate in December and take her boards in January. St. Mary's is so proud to say that her educational journey started many years ago in our school. Congratulations, Nikolene, on all you have accomplished!!

"Becoming a PA has been a dream of mine since I was 16 years old. I have always felt compelled to be in the medical profession because I genuinely enjoy finding solutions to help people continue their journey to better health," Nikolene says.
