FOUR DECADES!

Can you believe it? The Miami Valley Dance Center is celebrating 40 wonderful years of sharing the joy of dance!

We've got some fun things planned and a few surprises along the way as we make sure our celebration recognizes not only the parents, dancers, and staff who have graced the studio during that time, but all our other friends and supporters who have helped to make our studio the wonderful "dance home" it is.

Happy anniversary to us!

MVDC MARCHES IN THE FAIRBORN 4TH OF JULY PARADE!

By comparison with last year's Fairborn 4th of July parade when it was so hot it felt like we were marching in a skillet on a hot stove, this year's parade was a bit milder. The proud members of the Miami Valley Dance Center one again dazzled the huge crowd that turned out for this wonderful annual event.

Congratulations to our 2019 4th of July marchers!

Why

The Stepping Out to Cure Scleroderma walk is an event to raise awareness and funds to help research efforts and provide patient support and education. Scleroderma, which means “hard skin”, is a chronic connective tissue disease classified as one of the autoimmune rheumatic diseases. It can cause a thickening and tightening of the skin and damage to internal organs including the lungs, heart, kidneys, esophagus, and gastrointestinal tract. Medications and treatments can help with symptoms, but no cure exists for Scleroderma. Help us as we seek to increase understanding about treatment and management of scleroderma.

Community Park provides a scenic area for the event. The routes include $\frac{3}{4}$, $1\frac{1}{2}$ mile, and

5K distances for runners and walkers. Bring your own lunch. 300 participants are expected. A 50/50 drawing and raffles will be held with many prizes valued at over \$100. Face painting and crafts are some of the activities for kids! We will also recognize three families who have lost a loved one to Scleroderma with a “Gone, but not Forgotten Certificate”. Bring your family and friends!

Scleroderma is a chronic, often progressive autoimmune disease like Rheumatoid Arthritis, Lupus, & Multiple Sclerosis in which the body’s immune system attacks its own tissues.

Scleroderma, which literally means “hard skin,” can cause thickening and tightening of the skin, as well as serious damage to internal organs including the lungs, heart, kidneys, esophagus, and gastrointestinal tract.

An estimated 300,000 persons in the United States have Scleroderma. Approximately four times more women than men develop the disease.

The exact cause or causes of Scleroderma are unknown, and although medications can sometimes help, there is no cure.

Stankas & Stultz Attend Dance Intensives

Madelyn Stankas, a 13 year-old Dance Force team member and MVDC dancer, was excited to further her dance training over the summer with Cincinnati Ballet. She was accepted to the summer intensive program through audition and spent 3 weeks in classes that focused on ballet and pointe technique as well as classes in contemporary and modern dance, jazz and character dance, conditioning and dance history.

Madelyn loved the opportunity to work on details of her ballet technique and was very excited to push outside her comfort zone successfully in modern class, which involved a lot of improv. The dancers also learned repertoire for the 2019 Summer Intensive and Collegiate Workshop Performance at the end of the intensive.

Madelyn's group showcased their partnering in the Ensemble Pas de Deux, danced beautifully to choreography in Vivaldi Suite, and brought energy to the stage in their musical theater number "Magic to Do." One of her favorite moments in the performance was being selected for the pas de deux part in the Vivaldi piece.

She made many new friends and was very sad when her days full of dance with Cincinnati Ballet came to a close. She said, "I wish it was 10 weeks instead of 3!"

Julia Stultz had the opportunity to participate in the Indiana University High School Summer Dance Intensive in Bloomington, Indiana.

In this 12-day intensive, Julia had classes in many different styles of dance including Ballet, Contemporary, Modern, Aerial silks, and several others. Her favorite new style of dance she learned was Tango. She also had classes that focused on choreography composition, rhythmic analysis in music editing, and how to use dance to positively impact a community.

She loved taking a master class from David Dochoy, the director of Dance Kaleidoscope. On the last day, the students got to showcase their work for the intensive. Julia had the opportunity to perform in repertoires choreographed by Brandon Welch and Stephanie Nugent.

She also performed dances in the Graham technique, Tango, and West African styles. Julia's favorite parts of the intensive were meeting new

people from all over the country and learning all of the different styles of dance.

Onyx Announces Company Members
