

12/5/19 PI committee minutes

Attendees: S. Steen, H. Berg, S. Hofer, S. Wiesman, J. Blenker, M. Armstrong

Geriatric regional data was presented at the general meeting. The group further discussed the data. Some additional topics discussed were whether these patients were activated and if that impacted the time to CT scan.

The group discussed ideas for geriatric speakers for a possible topic for the regional conference and would consider spending their funds to get a speaker.
