

### TAKE ACTION NOW TO JOIN THE LAKEWOOD FOREST CIVIC ASSOCIATION

All Lakewood Forest residents should have received their annual billing statement from the Lakewood Forest Fund ("the HOA"). In past years, this invoice included an optional line item for residents to join the Lakewood Forest Civic Association (LFCA), at an annual cost of \$10. For the year 2020, the line item to join the LFCA is not included in the HOA's billing statement. The entire fee due (\$630) is only for mandatory HOA dues.

Payment to and membership in the LFCA has always been and continues to be completely voluntary. However, we have had a very large percentage of our residents join the LFCA and we thank you for your support over the years.

The Lakewood Forest Civic Association is an independent, non-profit neighborhood association incorporated in 1985 to promote the general welfare of Lakewood Forest residents and to support civic betterment for Lakewood Forest and surrounding areas. We are run by an elected board of homeowner volunteers who contribute their time and efforts toward making Lakewood Forest a nice place to live, enjoy, and raise a family.

Your \$10 voluntary membership dues go a very long way! With it, the Civic Association does the following:

- Events including the Easter Egg-stravaganza, the July 4th Patriotic Parade, Neighborhood Night Out, and the Community Garage Sale
- Publications including the monthly *Civic News* newsletter, the Residential Directory and the Newcomer's Guide
- Projects including Military Care Packages and Student Scholarship Awards
- Neighborhood improvements including Subdivision Entrance Wing Wall Lighting and Curb Number Painting

- Donations to our local public schools, the Lakewood Lightning swim team, the Lakewood Forest Garden Club and Cy Creek EMS

Residents who want to voluntarily join the LFCA for the fiscal year that began on September 1, 2019, and runs through August 31, 2020, need to pay for this membership separately by mailing a check made out to "Lakewood Forest Civic Association" directly to the following address. Please include your name, address, phone number and email address with your check.

Lakewood Forest Civic Association  
13121 Louetta Rd, PMB #1025  
Cypress, TX 77429

Please note that LFCA membership dues are not tax-deductible.

The LFCA Board of Directors thanks you for your continued support of the LFCA and your neighborhood. If you have questions or concerns, or ideas for civic betterment, please contact any one of us at our phone numbers listed on the inside front cover of every issue of the Civic News. We welcome all ideas and volunteers!

## COAT DONATION DRIVE Clean Out Your Closets!

The Lakewood Forest Civic Association is sponsoring a winter coat drive to collect warm coats, hats, gloves and scarves for people in need. The donations will all go to MESA Outreach (formerly Houston Northwest Community Center, Inc.), an independent community-based organization that provides a variety of services for people in our area. MESA programs include a community food pantry, a community produce truck, books for kids, and a Share the Harvest event providing food, coats, shoes, socks and toys for the winter holiday season. The focus is to serve people in our own community.

**What:** We are collecting new and clean, gently worn coats and winter accessories in all sizes, from infants to children to adults. Please, no missing buttons or broken zippers, etc.

**Where:** Bring your donations to the Lakewood Residents' Club on **Saturday, December 7** from 9 a.m. to 11 a.m. (during the Breakfast With Santa event). Or drop off your donations at Linda Musthaler's house at 12011 Fawnview Drive any time before **December 14** (Call first: 832-247-5854).

**When:** All donations will be taken to the MESA Outreach center for distribution to people in need during one of their wintertime produce truck events.

Thank you for your support of this worthy endeavor.

## LFCA Makes School Donations

Each year the Lakewood Forest Civic Association makes a donation to the six elementary and middle schools attended by children living in Lakewood Forest. Three are in Cy Fair ISD: Moore Elementary School, Hamilton Elementary School and Hamilton Middle School, and three are in Tomball ISD: Lakewood Elementary School, Northpointe Intermediate School and Willow Wood Junior High School.

In October and November, checks were presented to all six schools and we are happy to announce how these schools plan to use the funds to benefit the students. Moore Elementary is planning to launch a Garden Project. Hamilton Elementary will purchase math tub items such as rekenreks, dice, ten frame and weighted numbers. Hamilton Middle School will purchase audio equipment and Universal books for the READ 180 Program as well as dictionaries and thesauruses for each Reading and

Language Arts classroom. Lakewood Elementary will purchase library books. Northpointe Intermediate will purchase a computer to be used for their Restorative Discipline Program. Willow Wood Junior High will purchase a Chromebook computer.

Lakewood Forest's children are our most important asset, and we are happy to contribute to their education in this manner.

# Lakewood Forest arden lub

The Lakewood Forest Garden Club meeting began on November 1 with President Candace Beaver giving the history of poinsettias.

The co-hostesses using an autumn theme were Barbara Crum (Chair), Janice Giordano, Sandra McKeon, Susan Hanson, Gabriele Klopp, and Yvonne Newsome. They did a fabulous job with fall decorations and delicious refreshments. The hostess table was graced by a beautiful fall arrangement created by Barbara Crum.

The program was entitled "Horticulture Tips from Lakewood Forest Garden Club Experts" featuring leader Becky Bailey, Bette Gerhold and Eleese Lester-Baier.

Becky introduced us to the native poinsettia and the American beauty berry. Both plants are easy to grow and can spring up everywhere.

Bette shared her success of propagating a "cowardly lion" begonia by first rooting a cutting in water and transplanting it into fresh soil after 6 weeks when the root system was well established.

Eleese introduced us to the moringa and purslane plant. Both have been used in cooking and as medicinals. She recommends serving the small, tender leaves in salads.

The panel also answered questions from the membership. We learned that it is difficult to eradicate mimosa trees as they spread roots that might damage structures. Members shared tips about fertilizers for flower beds as well as lawns and agreed that organic fertilizers and composts are best for plants and the environment.

# Gardening Hints From the Pro, Sherri

## December To-Do List

### In the Flowerbeds

Deadhead and feed cool season color plants with Color Star Fertilizer. Continue to plant cool weather color: pansies, snapdragons, cabbage, kale, viola, alyssum, lobelia, cyclamen, and much more...

### In the Lawns

Your lawn should be in a dormant state and there's not much to do at this point. Make sure to back off your water while the lawn is dormant but make sure to water if we are going to have freezing temperatures.

### Poinsettias

Water well until soil is saturated and allow to dry between watering. Apply water to soil and not the foliage or blooms. Keep away from drafts.

### Feed the Birds!

Don't forget to keep seed feeders full and fresh water in bird baths. Put out suet cakes. The extra protein helps keep our feathered friends warm in the winter months.

### Freezes

Have frost cloth on hand to cover tender plants in case of freezing weather. Wrap plants completely down to ground level. The fewer cold drafts that move under the frost cloth, the better.

### In the Vegetable Garden

Work compost into the top couple of inches of your garden beds. Plant a cover crop in empty beds such as peas, oats, or rye to keep the soil active. These cover crops can be cut and worked into the soil before spring planting. You can still plant cool weather seeds about every 2 weeks for fresh veggies into spring.

We are still recommending that you do soil remediation after the past two very wet years. The first step will be applying MicroLife Humates Plus. This is loaded with beneficial microbes that will repair your soils and help with long term recovery. Second, you will want to apply Medina soil activator and liquid molasses to stimulate microbial activity.

It is time to apply rye seed for a green lawn all winter. If you go with the rye seed, make sure it's an annual turf type rye. Regular Gulf type rye gets tall and is better for grazing animals than growing as a lawn.

## Telge Road Detention Basin Becomes Dragonfly Habitat – Restoration and Conservation Combine

On a sunny day, anyone who visits a fresh body of water can find dragonflies darting about as they feast on insects. What is less obvious is that dragonflies successfully capture their prey 95% of the time. This research, published in the *Proceedings of the National Academy of Sciences* in 2012, revealed dragonflies are among the most efficient and lethal predators on Earth.

Dragonflies and damselflies belong to the scientific order Odonata, or “toothed one” as it’s translated in Greek, which refers to their serrated teeth.

These aquatic invertebrates are fascinating for many reasons, but the most important is their unspoken agreement with people to hunt pest mosquitoes. “The enemy of my enemy is my friend” is an ancient proverb that holds true to the relationship we have with dragonflies.

A single dragonfly can consume hundreds of mosquitoes per day. An ally like that is worth keeping around, which is exactly what Commissioner R. Jack Cagle had in mind when he suggested turning a run-of-the-mill detention basin into a dragonfly habitat.

“We transformed an ugly stormwater drainage hole in the ground into a place where our beautiful but voracious winged friends can thrive and entertain us,” Cagle said.

Anita Schiller, director of Precinct 4’s Biological Control Initiative, was asked to consult on the basin design to ensure beneficial wildlife, such as dragonflies and damselflies, would be incorporated. Additionally, Schiller was tasked with introducing native, non-game fish species and native, aquatic carnivorous plants to keep the basin from becoming a mosquito breeding ground. Schiller and her team released native dragonfly and damselfly nymphs at the basin since they not only feed on mosquitoes in the adult stage of life, but they are also relentless mosquito predators in the larval stage. Additionally, Schiller introduced carnivorous bladderwort plants to serve as natural barriers to discourage mosquito breeding in the basin.

Another motivation to create a dragonfly habitat at the Telge Road Detention Basin was preservation of these beneficial allies. There are 90 distinct species of Odonata in Harris County and more than 5,000 worldwide. But one in six species in North America are at risk of extinction, including some along the Gulf Coast.

It may be a long time before the stars align again with a site featuring ideal circumstances that achieve so many varying goals at one time. Until then, this project is an example of the success that comes from unique partnerships.

For more information about Precinct 4’s Biological Control Initiative, check out [www.hcp4.net/bci](http://www.hcp4.net/bci).

## Get ACC Approval Before Building!

Lakewood Forest is a Deed Restricted community. The Fund's Architectural Control Committee (ACC) must approve all exterior remodeling and building projects before the project begins. The Fund has the necessary legal authority to enforce this rule.

## TRASH REMINDER

All trash/recycle containers must be stored out of view at all times, except for after 6 p.m. the night before trash pickup.

Trash cans/bags should not be stored on driveways or within view from the street. If your lawn service mows before that time, please stow the bags out of sight until the night before pickup.
