

**The American Farm Heritage Museum will be hosting the  
Christmas Lights Wonderland in 2022! November 25 – December 31**

Guess what? Christmas is coming! The American Farm Heritage Museum will be hosting the Christmas Lights Wonderland for our 15th year! We are already hard at work on new projects that will be unveiled this season. The Lil' Red Barn will be back this year and so is the hot chocolate and cookies for all!

AFHM's Lighted Christmas Display continues to be popular and enjoyed by the visiting public from far and wide. We set record attendance every year and are proud to serve our community. Our nightly display is heightened by three special attractions on the weekends. Santa Visits, Hills Fort 1800's Christmas and the North Pole Express run by the American Heritage Railroad. The North Pole is a sight to behold and can only be accessed by train.

As a sponsor of the Christmas Lights Wonderland, your name is placed on one of the animated displays or next to the large Nativity scene. There is no charge for entry to the display because of sponsors such as yourselves. We do accept donations from visiting public. All proceeds above and beyond the expenses of the display will go to promoting the preservation of our agricultural & rural heritage. The Christmas Committee is proud to be an integral part of the AFHM's sustainability and growth.

It is our hope that in some way we can put brightness in the eyes and hearts of all of our visitors.

**Please give consideration to being a sponsor for the 2022 season.**  
Sponsorships are \$100 for a full sign.

**online payments for sponsor sign**
