

The Cottage East, alcove studio apartment

Old Naples Historic Home: 131 Broad Avenue South, Naples, Florida

Terra Palma
1912

The Cottage East alcove studio was built in 1912 and has been completely remodeled to the highest standards. The fully furnished and large great room has central air conditioning, ceramic tile floor, CD, DVD player and cable TV. The kitchen has granite countertops and is fully equipped including a dishwasher. The sleeping area has a vaulted ceiling, a queen sized bed and large closet. The pool and ample parking is only a short walk through the butterfly garden. A gas grill is in the patio. The complementary laundry room is off the garden path. Everything was done to make sure that the Cottage East is quiet and comfortable. Terra Palma is in an ideal location—it is only a short walk to the beautiful Naples beach and pier to the west; or an equally short walk to some of Naples finest restaurants and shopping to the east. WIFI is included.
