Notwithstanding the foregoing provisions of this Paragraph 2, the voting rights of the Class B membership, if same have previously automatically converted to one (1) vote per Lot owned, shall automatically be reverted to three (3) votes for each Lot owned until such time as the total vote outstanding in the Class A membership throughout the entirety of Tara Subdivision, including any additional portions of said 343.110 acres which may hereafter be duly annexed and become within the jurisdiction of the Association, collectively shall equal or exceed the total votes outstanding in the Class B membership throughout the entirety of Tara Subdivision, or until May 1, 1984, whichever date occurs the earliest, at which time Class B voting rights shall automatically be converted to one (1) vote for each Lot.

3. Bylaws. The Association may make and from time to time amend whatever rules and Bylaws it shall deem desirable to govern the Association and its members; provided, however, any conflict between such Bylaws and the provisions hereof shall be controlled by the provisions hereof.

ARTICLE IV RESTRICTIONS, COVENANTS AND CONDITIONS

1. Land Use and Building Type. All Lots shall be known, described and used as lots for residential purposes only and no structure shall be erected, altered, placed or permitted to remain on any residential Lot other than one single-family dwelling not to exceed two full stories in height with an attached or detached garage of a minimum size to accommodate one car, and each residential Lot shall be provided with a minimum of two off-street paved parking spaces. As used herein, the term "residential purposes" shall be construed to prohibit the use of said property for garage apartments or apartment houses; and no Lot shall be used for business or professional purposes of any kind, nor for any commercial or manufacturing purposes. No building of any kind or character shall ever be moved upon any Lot within said Subdivision, it being the intention that only new construction shall be placed and erected thereon; provided, however, that on Lots subject to these Restrictions, the residential home builder/owner shall be permitted to move onto a Lot and maintain thereon a construction and storage building, which building need not comply with the building specifications contained in these Restrictions so long as the exterior appearance of said building shall be reasonably maintained, which building shall be removed from said Lot by the builder/owner maintaining same when said builder/owner has completed his construction in Tara Section Two; provided, further, however, that builder/owner on Lots subject to these Restrictions may maintain a sales office in one of their houses built according to these Restrictions for eventual sale to a resident, which sales

office may only be used for sale of houses in Tara Subdivision and in which sales office a window air conditioner may be employed, if necessary.

2. Architectural Control. No building shall be erected, placed or altered on any Lot until the construction plans and specifications and a plot plan showing the location of the structure have been approved by the Architectural Control Committee, hereinafter established, as to quality of workmanship and materials, harmony of external design with existing structure, and as to location with respect to topography and finished grade elevation.

(a) Fences. No fence or wall shall be erected, placed or altered on any Lot nearer to the street than the minimum building set back lines as shown on the recorded plat. All fences shall be made of wood, and shall be of a usual construction and configuration, and shall be of a height of six feet, unless otherwise approved by the Architectural Control Committee.

(b) Dwelling Size. The floor area of the main residential structure, exclusive of open porches, garages and breezeways, shall not be less than 1,000 square feet.

3. Type of Construction, Materials and Landscape.

(a) No residence shall have less than 51% brick or equivalent masonry construction on its exterior wall area, except that detached garage may have siding of a type and design approved by the Architectural Control Committee.

(b) The roof of any residence shall meet or exceed all FHA standards.

(c) A concrete sidewalk four(4') feet wide will be constructed no further than two (2') feet from the property line at the street along the entire front of all Lots; in addition thereto, four(4') foot wide sidewalks will be constructed no further than two (2') feet from the property line along the entire side of all corner lots. The plans for each residential building on each of said lots shall include plans and specifications for such sidewalk and same shall be constructed and completed before the main residence is occupied. All sidewalks shall be constructed in accordance with FHA and Fort Bend County regulations.

(d) No window or wall type air-conditioners shall be permitted to be used, erected, placed or maintained on or in any building in any part of said Subdivision, except in sales offices as described hereinabove.

No building shall be located nearer than five (5') feet to any interior Lot line, except that a garage or other permitted accessory building located sixty-five (65') feet or more from the front Lot line may be located within three (3') feet of an interior Lot line; provided, however that a dwelling may be located as near as three (3') feet to any interior Lot line so long as the distance between any adjacent dwelling and the dwelling situated as close as three (3') feet to an interior Lot line is not less than ten (10') feet; provided, however, the foregoing minimum side yard provision to the contrary notwithstanding,

in no event shall the sum of the side yard widths on any Lot (except in the case of a garage or other permitted accessory building set back sixty-five (65') feet as above provided) be less than fifteen (15%) per cent of the width of the Lot, measured (to the nearest foot) along the front set back line shown on the recorded plat. No main residence building nor any part thereof shall be located on any interior Lot nearer than fifteen (15') feet to the rear Lot line. For the purposes of this covenant, eaves, steps and open porches shall not be considered as a part of the building; provided, however, that this shall not be construed to permit any portion of a building on any Lot to encroach upon another Lot. For the purposes of these restrictions, the front of each Lot shall coincide with and be the property line having the smallest or shortest dimension abutting a street. Each main residence building will face the front of the Lot, and each garage will face the front of the Lot on which it is situated and will be provided with driveway access from the front of the Lot only, except that the garages on the corner Lots may face the side street if the Lots facing on the side streets have garages facing said side street and if this exception is specifically approved by the Architectural Control Committee. The Architectural Control Committee may grant minor variances up to one (1') foot in building location.

5. Minimum Lot Area. No Lot shall be resubdivided, nor shall any building be erected or placed on any Lot having area of less than 5,000 square feet; provided, however, that nothing herein contained shall be construed to prohibit the resubdivision of any Lot or Lots within said subdivision if such resubdivision increases the minimum Lot area aforesaid of all building plots affected thereby, it being the intention of this Restriction that no building plot within said Subdivision shall contain less than the aforesaid minimum area.

6. Underground Electric Distribution System. An underground electric distribution system will be installed in that part of Tara Subdivision designated Underground Residential Subdivision, which underground service area shall embrace all Lots in Tara Section Two. The owner of each Lot in the Underground Residential Subdivision shall, at his own cost, furnish, install, own and maintain (all in accordance with the requirements of local governing authorities and the National Electric Code) the underground service cable and appurtenances from the point of the electric company's metering on customer's structure to the point of attachment at such company's installed transformers or energized secondary junction boxes, such point of attachment to be made available by the electric company at a point designated by such company at the property line of each Lot. The electric company furnishing service shall make the necessary connections at said point of attachment and at the meter. In addition, the owner of each Lot shall, at his own cost, furnish, install, own and maintain a meter loop (in accordance with the then current standards and specifications of the electric company furnishing service) for the location and installation of the meter of such electric company for the residence constructed on such owner's Lot. For so long as underground service is maintained, the electric service to each Lot in the Underground Residential Subdivision shall be uniform in character and exclusively of the type known as a single phase 120/240 volt, three wire, 60 cycle, alternating current.

(b) No truck, camper, trailer, automobile, boat - whether powered or sail or otherwise - or other vehicle will be stored, parked or kept on any Lot or in any street for more than sixty (60) hours during a seventy-two (72) hour period, and no inoperative vehicle (inoperative defined herein as not in a running or usable condition) may be parked or stored on any Lot or in any street at any time; provided that nothing herein contained shall be construed to prohibit the storage of any unused or inoperative vehicle or any other vehicle or boat in the garage permitted on any Lot covered hereby; provided further, however, that nothing contained in these Restrictions shall be construed to prohibit the storage of all such vehicles or boats, except inoperative vehicles, behind a solid wooden fence constructed on Lots covered by these Restrictions and constructed in accordance with other provisions of these Restrictions, said fence to be maintained in accordance with other provisions of these Restrictions, said fence not to exceed six (6') feet in height, and the height of permitted vehicles and boats so stored behind such fence shall not exceed the height of such fence by more than three (3') feet.

No signs, billboards, posters or advertising devices of any character shall be erected on any Lot except one sign of not more than ten square feet in surface area advertising the property for sale or rent. Billboards may be used by a builder to advertise property during construction and sales period and shall be constructed so as not to cause a hazardous situation.

10. Oil and Mining Operations. No derrick or other structure designed for use in boring for oil or natural gas or other minerals shall be erected, maintained or permitted upon any lot.

11. Storage and Disposal of Garbage and Refuse. No Lot shall be used or maintained as a dumping ground for rubbish. Trash, garbage or other waste materials shall not be kept except in sanitary containers constructed of metal, plastic or masonry materials with sanitary covers or lids. Equipment for the storage or disposal of such waste materials shall be kept in clean and sanitary condition. Provided, further, that no Lot shall be used for the open storage of any materials whatsoever which storage is visible from the street, except that new building materials used in the construction of improvements erected upon any Lot may be placed upon such Lot at the time construction is commenced and may be maintained thereon for a reasonable time, so long as the construction progresses without undue delay, until the completion of the improvements, after which these materials shall either be removed from the Lot or stored in a suitable enclosure on the Lot.

12. Visual Obstructions at the Intersections of Public Streets. No object, plant, or thing shall be placed, planted or permitted on any corner Lot which object, plant or thing obstructs reasonable safe and clear

visibility of pedestrian or vehicular traffic by pedestrian or vehicular traffic through sight lines parallel to the ground surface at elevations between two (2') feet and six (6') feet above the roadways, which object, plant, or thing lies within a triangular area on any corner Lot described by connecting with a line two points, each such point respectively established at the edge of the paving abutting said corner Lot, twenty-five (25') feet back along the curb on streets abutting said Lot, measured from the center of the corner curb curve abutting said Lot.

13. Lot Maintenance. The owners or occupants of all Lots shall at all times keep all weeds and grass thereon cut in a sanitary, healthful and attractive manner and shall in no event use any Lot for storage of materials and equipment except for normal residential requirements or incident to construction of improvements thereon as herein permitted, nor permit the accumulation of garbage, trash or rubbish of any kind thereon and shall not burn anything (except by use of an incinerator as permitted by law). The drying of clothes in full public view is prohibited and the owners or occupants of any Lots at the intersection of streets or adjacent to parks, playgrounds or other facilities where the rear yard or portion or portions of the Lot is visible to full public view shall construct and maintain as needed a suitable enclosure to screen from public view yard equipment and wood piles or storage piles which are incident to the normal residential requirements of a typical family. In the event of default on the part of the owner or occupant of any Lot in observing the above requirements or any of them, and the continuance of such default after ten (10) days written notice thereof, Declarant or their assigns shall, without liability to the owner or occupant in trespass or otherwise, have the right to enter upon said Lot or cause to be cut such weeds and grass and remove or cause to be removed such garbage, trash and rubbish or do any other thing necessary to secure compliance with these Restrictions so as to place said Lot in a neat, attractive, healthful and sanitary condition and may render a statement of charge to the owner or occupant of such Lot for the cost of such work. The owner or occupant, as the case may be, agrees by the purchase or occupation of the property to pay such statement immediately upon receipt thereof.

14. Maximum Height of Antennae. No radio or television aerial wires or antennae shall be maintained on any portion of any Lot forward of the front building line of said Lot nor shall the bottom of any antennae of any style, exclusive of masts, be permitted to extend more than twenty (20') feet above the roof of the main residential structure on said Lot. ARTICLE V RESERVATIONS, EXCEPTIONS AND DEDICATIONS

1. Recorded Subdivision Map of the Properties. The recorded Subdivision plat of the Properties dedicates for use as such, subject to the limitations as set forth therein, the streets and easements shown thereon, and such recorded subdivision plat of the Properties further establishes certain restrictions applicable to the Properties, including, without limitation, certain minimum set back lines. All dedications, limitations, restrictions and reservations shown on the recorded plat of the Properties are incorporated herein and made a part hereof as if fully set forth herein, and shall be construed as being adopted in each and every contract, deed or conveyance executed or to be executed by or on behalf of Declarant and any subsequent Owner, conveying said property or any part thereof, whether specifically referred to therein or not.

2. Easements. Declarant reserves the easements and rights-of-way as shown on the recorded plat of the Properties for the purpose of constructing, maintaining and repairing a system or systems of electrical lighting, electric power, telegraph and telephone line or lines, gas,

sewers, or any other utility Declarant sees fit to install in, across and/or under the Properties. Declarant reserves the right to make changes in and additions to the above easements for the purpose of most efficiently and economically installing the improvements. Neither Declarant nor any utility company or authorized political subdivision using the easements herein referred to shall be liable for any damages done by them or their assigns, their agents, employees or servants, to fences, shrubbery, trees or flowers or any other property of the Owner on the land covered by said easements.

3. Installation of Paving. Declarant reserves the right, during installation of paving of the streets as shown on the recorded plat of the Properties, to enter onto any of the Properties for the purpose of disposing of street excavation, including the removal of any trees, if necessary, whether or not the Properties have been conveyed to and/or contracted for to any other Owner or Owners.

4. Title Subject to Easements. It is expressly agreed and understood that the title conveyed by Declarant to any of the Properties in Tara, Section Two, shall be subject to any easement affecting same for roadways or drainage, water, gas, sewer, storm sewer, electric light, electric power, telegraph or telephone purposes and shall convey no interest in any pipes, lines, poles, or conduits, or in any facility or appurtenances thereto constructed by or upon the premises affected thereby, or any part thereof, to serve said land or any other portion of the Properties, and where not affected, the right to maintain, repair, sell or lease such appurtenances to any municipality, or other governmental agency or to any public service corporation or to any other party, and such right is hereby expressly reserved.

5. Composite Building Site. Subject to the approval of the Architectural Control Committee, any Owner of one or adjoining Lots or portions thereof may consolidate such Lots or portions into one building site with the privilege of placing or constructing improvements on such resulting site, in which case set back lines shall be measured from the resulting side property lines rather than from the Lot lines as indicated on the recorded plat. Any such composite building site must have a frontage at the building set back line of not less than the minimum frontage of the Lots in the same block.

6. Adjacent Property. No obligation is created hereby with respect to property adjacent to or adjoining Tara Section Two and which is part of a tract of land owned by Declarant and which contained 343.110 acres before any portions thereof were subdivided. While Declarant may subdivide other portions of said 343.110 acres, or may subject same to a declaration such as this Declaration, the Declarant shall have no obligation to do so. Any subdivision plat or declaration executed by Declarant with respect to any other portions of said 343.110 acres may be the same or similar or dissimilar to any subdivision plat covering any other portions of said 343.110 acres, or to this Declaration.

ARTICLE VI
MAINTENANCE CHARGE AND COVENANT FOR
MAINTENANCE ASSESSMENTS

1. Creation of the Lien and Personal Obligation of Assessments. The Declarant, for each Lot owned within the Properties, hereby covenants, and each Owner of any Lot by acceptance of a deed therefor, whether or not it shall be so expressed in such deed, is conclusively deemed to covenant and agree to pay to the Association: (1) annual assessments or charges; and (2) special assessments for capital improvements, such assessments to be established and collected as hereinafter provided. The annual and special assessments, together with interest, costs and reasonable attorney's fees, shall be a charge on the land and shall be a continuing lien upon the property against which each such assessment is made. Each such assessment, together with interest, costs and reasonable attorney's fees, shall also be the personal obligation of the person who was the Owner of such property at the time when the assessment fell due. The personal obligation for delinquent assessments shall not pass to his successors in title unless expressly assumed by th

2. Annual Assessment or Charge. Each Lot in said Subdivision, when said Lot is certified by the Subdivision Engineer to be a completed building site, is hereby subjected to an annual maintenance charge and assessment not to exceed \$10.00 per month or \$120.00 per annum, for the purpose of creating a fund to be designated and known as the "maintenance fund", which maintenance charge and assessment will be paid by the Owner or Owners of each Lot within said Subdivision, and any annexed areas, to Tara Association, in advance annually, commencing as to all Lots on the first day of the month following their certification of completion. The rate at which each Lot will be assessed will be determined annually by the Board of Directors of Tara Association, at least thirty (30) days in advance of each annual assessment. Said rate and when same is payable may be adjusted from year to year by said Board of Directors as the needs of the Subdivision may in the judgment of the Directors require. The assessment for each Lot shall be uniform except that so long as there is a Class B membership, the Board of Directors may charge and collect a fraction of the annual assessment on each Lot owned by Declarant until the conveyance of said Lot by Declarant to an Owner, provided that any such fractional charge to Declarant shall not be less than fifty (50%) per cent. The due dates shall be established by the Board of Directors. The Association shall upon demand, and for a reasonable charge, furnish a certificate signed by an officer of the Association setting forth whether assessments on a specified Lot have been paid. The present Owner of the Lots and their successors and assigns agree to pay their and each of their proper proportion of said assessment for all Lots in said Subdivision which are fully developed and saleable building sites commencing on the first day of the month following the conveyance of the Common Area, and thereafter for each such Lot. Tara Association shall use the proceeds of said maintenance fund for the use and benefit of all residents of said Subdivision, as well as those of all residents of Tara, Section One, and any subsequent sections of the Subdivision which may be annexed as hereinafter set forth. Such uses and benefits to be provided by said Association may include, by way of clarification and not limitation, any and all of the following: acquisition, constructing and maintaining parks, parkways, rights-of-way, easements, esplanades and other public areas; supervising and contracting for the collection and disposition of garbage, ashes, rubbish and the like; maintenance of any Common Area; payment of all legal charges and other expenses incurred in connection with the enforcement of all recorded charges and assessments, covenants, restrictions and conditions affecting said property to which the maintenance fund applies; payment of all reasonable and necessary expenses in connection with the collection and administration of the maintenance charge and assessment, employing policemen and watchmen, caring for vacant Lots and doing any other thing or things necessary or desirable in the opinion of Tara Association to keep the property in the Subdivision neat and in good order, or which is considered of general benefit to the Owners or occupants of the property, it being understood that the judgment of Tara Association in the expenditure of said funds shall be final and conclusive so long as such judgment is exercised in good faith.

3. Special Assessments for Capital Improvements. In addition to the annual assessments authorized above, the Association may levy, in any assessment year, a special assessment applicable to that year only for the purpose of defraying, in whole or in part, the cost of any acquisition, construction, reconstruction, repair or replacement of a capital improvement upon any Common Area, including fixtures, and personal property related thereto, provided that any such assessment shall have the assent of two-thirds (2/3rds) of the votes of each class of members who are voting in person or by proxy at a meeting duly called for this purpose not less than thirty (30) days nor more than sixty (60) days in advance of the meeting. At the first such meeting called, the presence of members or of proxies entitled to cast sixty (60%) per cent of all the votes of each class of membership shall constitute a quorum. If the required quorum is not present, another meeting may be called subject to the same notice requirement, and the required quorum at the subsequent meeting shall be one-half (1/2) of the required quorum of the preceding meeting. No such subsequent meeting shall be held more than sixty (60) days following the preceding meeting.

4. Effect of Non-Payment of Assessments: Remedies of the Association. Any assessment not paid within thirty (30) days after the due

2/3

DEED

003-552

date shall bear interest from the due date at the rate of six (6%) per cent per annum. The Association may bring an action at law against the Owner personally obligated to pay the same, or foreclose the lien against the property. No Owner may waive or otherwise escape liability for the assessments provided for herein by non-use of any Common Area or abandonment of his Lot.

5. Subordinated Lien to Secure Payment. To secure the payment of the maintenance charge and assessment established hereby and to be levied on individual Lots as above provided, there shall be reserved in each deed by which the Owner (the present and any subsequent owners) shall convey such Properties, or any part thereof, the Vendor's Lien for the benefit of the said Tara Association, said lien to be enforceable through appropriate proceedings at law by such beneficiary; provided, however, that each such lien shall be specifically made secondary, subordinate and inferior to all liens, present and future, given, granted, and created by or at the instance and request of the Owner of any such Lot to secure the payment of monies advanced or to be advanced on account of the purchase price and/or the improvement of any such Lot; and further provided that as a condition precedent to any proceeding to enforce such lien upon any Lot upon which there is an outstanding valid and subsisting first mortgage lien, said beneficiary shall give the holder of such first mortgage lien sixty (60) days written notice of such proposed action, such notice, which shall be sent to the nearest office of such first mortgage lienholder by prepaid U.S. Registered Mail, to contain the statement of the delinquent maintenance charges upon which the proposed action is based. Upon the request of any such first mortgage lienholder, said beneficiary shall acknowledge in writing its obligation to give the foregoing notice with respect to the particular property covered by any such first mortgage lien to the holder thereof. Sale or transfer of a Lot shall not affect the assessment lien. However, the sale or transfer of any Lot pursuant to mortgage foreclosure or any proceeding in lieu thereof shall cancel the lien of such assessment as to payments which became due prior to such sale or transfer, but no such sale or transfer shall relieve such Lot from liability for any assessments thereafter becoming due or from the lien thereof.

6. Duration. The above maintenance charge and assessment will remain effective for the full term (and extended term, if applicable) of the within covenants.

7. Annexation.
