the essential big ideas of the Bible.**

FREQUENTLY ASKED QUESTIONS

What is The Bible Project? The preparation of Teacher/Coaches to lead the people of a church to study, know and apply the Bible for themselves is the goal. The Teacher/Coaches undertake a two-year course of preparation in which the whole Bible is the text. A lens of understanding is provided and developed so that the many parts come together into a focused panorama of God's revelation.

What are the benefits? First, each participant will gain a personal grasp of God's Word. Secondly, they will be able to lead others into that experience. Third, God-willing, the congregation as a whole will have the opportunity to get a handle on their own knowledge and experience of the Christian faith. And more besides!

When will classes start? Those who are led to participate will decide the time best for their schedules. The level of engagement is so significant that a schedule that allows people to make the life-space available is necessary.

At what time(s) will classes be held? Times and dates will be determined by participants. The hope is that involvement is not limited by a pre-determined schedule.

How many people are needed to have a class? A number sufficient that a large part of the congregation may have prepared teachers. 20-30 is the hope.

MORE F.A.Q.S

How much time will be expected of Teacher/Coaches during preparation?

Classes will be two hours each week for 38 weeks. Participants will read the entire Bible chronologically over two years. Preparation for classes will be expected each week along with a certain amount of recollection practice.

What do I need to do now? Use this form to indicate your interest. *No one is making a commitment to be a participant by filling in this form.* Pastor Jim Tony will talk with each one individually so that a more complete awareness of expectations are as clear as possible.
