

**Simple.  
Affordable.  
SOLUTIONS.**

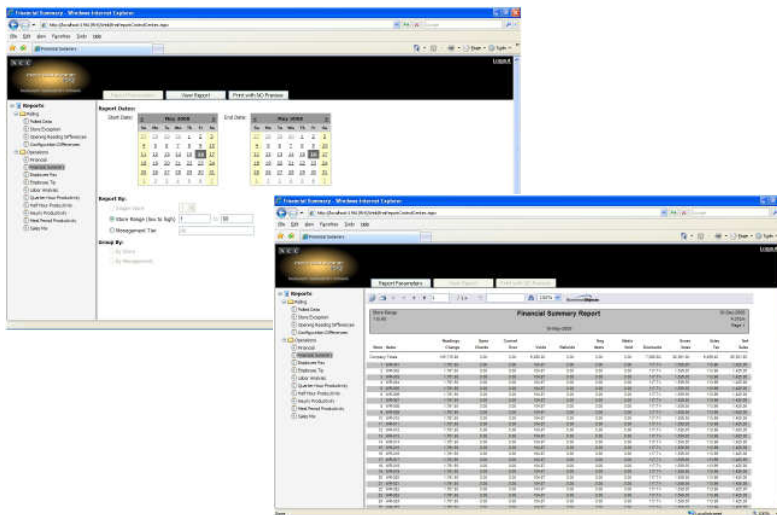

NCC Restaurant HQ is a software package that provides store polling and basic reporting for restaurant headquarters. This software collects data from your restaurants into a SQL database located at your corporate headquarters, making the sales information available for corporate reporting just minutes after the POS system is closed.

**System Features**

- Supports up to 9 management levels for reporting
- Store data is stored into the Microsoft® SQL database
- Produce Operations reports by Store or Management for any date range

Financial Report	Sales Tax	Labor Analysis
Financial Summary	Charge Acct Transaction	Employee Pay
Hourly Sales	Charge Acct Balance	Employee Tip
Product Sales Mix		

- Reports available from desktop client or across the Internet (server requires IIS)
- Login authentication
- Requires minimal setup and training
- Low cost of ownership

For an interactive demonstration of the software, visit [www.nccusa.com/rhqdemo](http://www.nccusa.com/rhqdemo). Enter a username of DEMO and press [ Log In].
