

Corina Murphy, M.H.Sc., reg.CASLPO (#1982)
Speech & Language Pathologist

Hello! My name is Corina Murphy and I have been a Speech and Language Pathologist for over 22 years. In that time, I have worked with children from infancy to adolescence in a variety of settings, such as, hospitals, child development centres, preschool programs and schools. Recently, I resigned from my position as Clinical Practice Leader at ErinoakKids in order to rebrand and reopen my Private Practice:

starfish SLP Speech, Language
and Communication Services

My team of assistants and I are committed to providing excellent, efficient and individualized speech, language and communication intervention to children and their families in the Burlington area. In order to do this, I know that I need to connect with parents and professionals who provide care and education to children.

Therefore, I am very excited to partner with Lisa Akinlabi at MacFadyen Preschool Academy. I will be providing a workshop for staff and parents and will be available for speech, language and communication consultations and/or screenings of children attending MacFadyen Preschool Academy.

Please contact me with any questions you may have about your child's speech, language and communication at corina@starfishslp.com

Looking forward to meeting you and to the continued partnerships with MacFadyen Preschool Academy.
