

# Mudawi

## Residential DSP 1.5 years

In November of 2020, in the very early morning hours, a fire broke out at the home where Mudawi Ahmmed was working. The 4 gentlemen who lived there needed to be evacuated immediately and were displaced due to the extent of the fire. Mudawi was the only staff on during that time. He remained calm and was able to wake all 4 gentlemen up and evacuate them from their homes keeping them safe and calm through a very stressful event. Mudawi followed all safety protocols he had been taught and remained with the gentlemen throughout the rest of the night, relocating them to a hotel, and ensuring he was there to provide them support and the opportunity to process what all had happened. Mudawi's personal vehicles were lost due to the fire and despite this, his concerns were focused on the people he was working with and their needs.

Mudawi Ahmmed is an employee who has gone above and beyond for MYEP and for the people he provides services to. Mudawi is consistently on time to his shifts and is always willing to take on more shift where extra help is needed. Mudawi finishes all the required paperwork and is quick to fix something when advised to do so. When given training or instruction, Mudawi immediately puts into practice what he's learned.
