Let Me Be Your Voice on City Council

## Stop Business as Usual

Our city needs a change in council dynamics. In District 3, I stand as the sole candidate not aligned with Tony Wu or other councilmembers. This independence enables me to work effectively with both fellow councilmembers and residents to tackle critical issues like financial stability, homelessness, and crime.

Our community deserves leaders that puts residents needs first, instead of political victories & personal agendas. The council must focus on fixing costly mistakes and stopping multi-million dollar lawsuits.

## Vote for Fiscal Responsibility, Not Bankruptcy

Our city continues to grapple with serious financial stability challenges, ***ranking 469th out of 483 cities for financial strength***, leading to reductions in services for our community.

Meanwhile, the council continues to squander millions of dollars on high-cost projects such as West Covina Health, West Covina SportsPlex, and festivals, while failing to address the critical issues we face: police, crime, street repairs, homelessness, graffiti, financial and more.
