<http://www.hutchnews.com/Todaystop/Fri--memorial-hall-time-capsule>

Now they just have to hope that Memorial Hall survives another 100 years and that a future generation will retrieve it in 2112.

Today's (4-27-2012) affair will no doubt be quieter than when the original time capsule was sealed in the cornerstone on Sept. 26, 1911.

President Taft had just addressed a crowd of 20,000 at the state's semi-centennial celebration at the fairgrounds, then came downtown to what was then called Convention Hall, under construction at Avenue A and Walnut.

~Be sure to read articles for then & now celebrations and the Mementos found after 100 yrs. and the pondering if anything will be relevant in next 100 yrs., will folks in future will be so advanced that they will understand the technology of our time?~
