

# WASHINGTON STATE DAHLIA SOCIETY OCTOBER MEETING

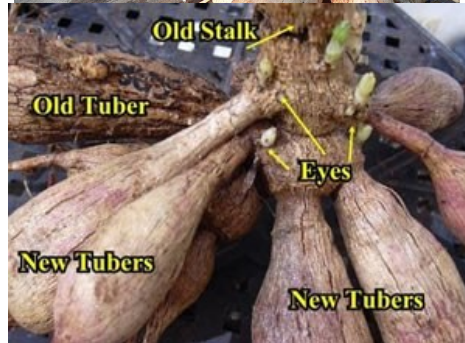

If you have ever wondered how to divide your tubers, this is the meeting to come to!!!!

We will be dividing the tubers from the buffer rows at the Point Defiance Trial Garden!!! Come sit beside someone and get some "hands on" experience on dividing tubers.

Learn from some of the best!! It's lots of fun

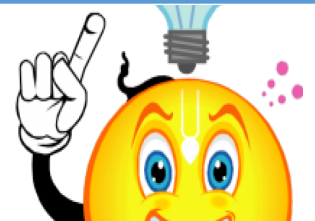

The more hands helping, the faster the job gets done!

**DON'T FORGET TO  
BRING YOUR TOOLS!**

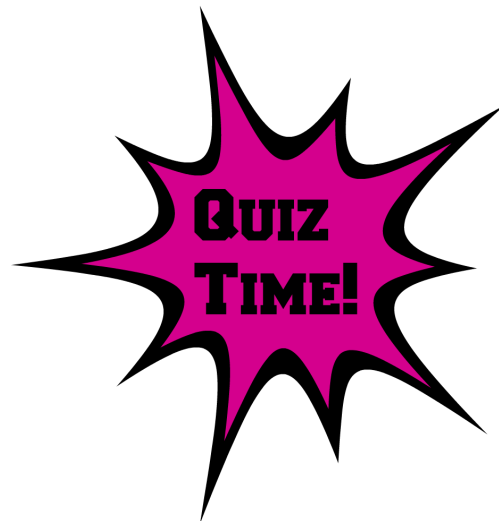

It's that time of year to be thinking about what dahlias you are going to keep and which ones will go by the way side, or if you have too many of a variety! Your club can always use extra tubers! If this is perhaps the case for one or two of your dahlias, you could bring them to the tuber cut! Dig them and wash off the dirt. **THEY MUST HAVE THEIR NAME ATTACHED TO THEM.**

That way, they are divided, and stored with very little fuss on your part, **AND the club GREATLY APPRECIATES EVERY DONATION WE CAN GET!!!!**

We are going to try to amaze Don Filand with his fun Quizes! We will try to go through the previous months as well as this months quiz. Have fun figuring out the answers!

*Bob and Terry will be providing the treats this month in honor of their Birthdays! Wonder what they will bring!!! My mouth is already watering!*
