for more information about IET®

In the tradition of Caroline Myss's "Energy Anatomy", IET® is one of the next generation - hands on - power energy therapy systems that gets the "issues out of your tissues" for good. You can become *an energy intuitive*, by taking IET® classes, as you are taught how to *feel* and *interpret* energy flow, *clear* energy patterns in yourself and others, which can unlock your inner wisdom and release fear allowing you to live your soul's purpose.

This IET® Introduction workshop will provide a basic understanding of how the IET® system of healing supports you and your clients physical, emotional, mental and spiritual healing. *You will be offered the experience to "heartlink" to the energy of your angel's heart and use this energy for healing yourself and others.* We will briefly discuss how each primary human emotion is correlated to a specific cellular (physical) region of the body, as well as how we use the IET® Integration power points to clear them. During the workshop you will be introduced to the nine IET® Healing Angels!

Attention:

****LICENSED MASSAGE
THERAPISTS****

**who complete an IET® 8 hour
certification class you can earn
NCBMTB 8.0 CE's per certification
level (Basic, Intermediate &
Advanced)**
