

# 5 REASONS TO GET INVOLVED WITH CSP

## Enhance natural resources

With CSP, our goal is to help you recognize the resources on your land and develop a conservation plan to improve them.

## Better your community

Good land stewardship also provides multiple benefits to local communities, including better water and air quality, increased wildlife habitat, and sustainably grown food.

## Improve your operation

CSP is for working lands. Through CSP, we can help you build your business while implementing conservation activities that help ensure the sustainability of your entire operation

## Achieve your conservation goals

Want to improve grazing conditions, increase crop yields, or develop wildlife habitat? We can help you meet your goals. If you are already taking steps, CSP may can help you find new ways to meet your goals.

## Receive an annual payment for your conservation efforts

Once you choose the conservation activities that best fit your operation, CSP offers annual payments for installing these activities on your land and operating and maintaining your current conservation efforts.
