RE: ClayMate Automated Shooting System

Dear Laramie Trap Club Members,

The Laramie Trap Club has purchased a Claymate Automated Shooting System. This will allow a shooter who has gone through the required training and documentation to shoot either skeet or trap during non-business hours. There will be **no** access to the clubhouse during non-business hours.

The cards required to use the ClayMate System will have a one-time, non-refundable purchase price of \$100. These cards are then “loaded” with the number of clay targets a member wants to purchase. If a card is lost, a new one can be purchased for \$5 however, there is no way to determine how many targets were left on the card so you will **not** be reimbursed for those targets. There is also a \$5 lost key fee.

No member will receive a card until they have received an orientation session from a board member (which will have to be documented on the application form) on the usage of the system and safety features of the trap. This will allow the shooter to receive the full benefit of the privilege of open access to the skeet and trap field. It will also help to decrease broken or lost target which will come off the shooter’s card as the target is thrown. The orientation will include warming the traps during cold weather, reloading the traps, picking up spent shells and resetting the traps to the original settings if changed. Voice pulls will be utilized for this system. Training will include the use of these pulls as well.

The cards will be loaded with 27 targets for the price of 25 (this allows a couple extra targets to make up for broken targets etc...thus in some instances, you will get 27 targets while shooting and other times you might only get 23 or 24). Shooters will be responsible for getting targets loaded to their cards during normal business hours. After usage is determined, the time to load targets on a card during non-traditional months will be established. The price of the targets will be set by the board but will remain the same as when shooting a practice round until the system is paid for, at which time, the board may elect to revisit the price of targets. The system is not set up for doubles; therefore, doubles will not be possible at this time.

This system will be a privilege to LTC members. If there is a lot of vandalism or theft during the time the ClayMate system is installed, the board reserves the right to revoke the privileges of an individual or to pull the whole system. If this is the case, you will be refunded for the targets left on your card but not the \$100 fee. It will be up to the individual shooters to police one another to insure this system and these privileges are not abused. If you come to the club, and there is a mess that has not been cleaned up or the targets are missing, please inform a board member immediately. The ClayMate cards are tracked to an individual thus we will have a record of attendance at the club.

If you are shooting using the ClayMate System and another individual is waiting for the system; please take turns with the system and limit your session to 50 targets/person.

All applications and revocations will be voted on and approved by the Board of Directors at their monthly meetings (normally scheduled for the second Monday of each month). The decisions of the board are final and there is **no** appeal process.

If you are interested in utilizing this privilege, please fill out the attached application and send a check for the \$100 non-refundable fee. We will contact you regarding a training schedule as soon as the system is in place.

Thank you for your time.

Sincerely,

Laramie Trap Club Board of Directors
