DESCRIPTION: The BP H-70 is fairly RARE, as it was made only one year (1969). In 1970 the design was tweaked a little and a few higher-end features dropped, and it was re-branded as the Predator. This is a high quality all-purpose recurve with a few flaws. **The good:** Bow has no delamination; no cracks; limbs are straight. Double-sided overlay tips. Beveled arrow shelf. Overlays and tips are in good condition. No chips, dings or cracks. No stress cracks or crazing. **The bad:** a number of filled drill holes (see pics). A few minor scratches and nicks here and there. Decal is in good condition. Except for the filled holes, this is a nice bow in otherwise good condition for its age. COMES WITH A NEW STRING.
