

The

Update

News from Derbyshire UNISON for all members January 2019

Your union needs you!

We work at local and national level and have a network of Labour Link officers at branch, regional and national levels who work together and with other affiliated unions.

We need more people in UNISON, more UNISON members in Labour Link and more Labour Link members campaigning for UNISON issues and policies with and within the Labour Party - THEN WE CAN WIN!

Contact me on 07764 775 313 and/or gary.ransford@unisondc.plus.com to find out more. If you are already involved in the Labour Party, please let me know.

GARY RANSFORD
Derbyshire UNISON Labour Link Officer

Labour Link is our connection with the political system under which our members have to live and work and under which our union has to operate.

Why Labour?

Because the trade unions helped to create the Labour Party to gain a bigger and better voice in the political system at all levels. This was over 100 years ago but the link remains as important now as it was then.

Labour Link works directly with the Labour Party to take UNISON's policies into the heart of the party and parliament.
