

ARCHERY  
COMPANY

10500 NATURAL BRIDGE

WINFIELD 1814

ST. LOUIS 21, MISSOURI

CATALOG 7

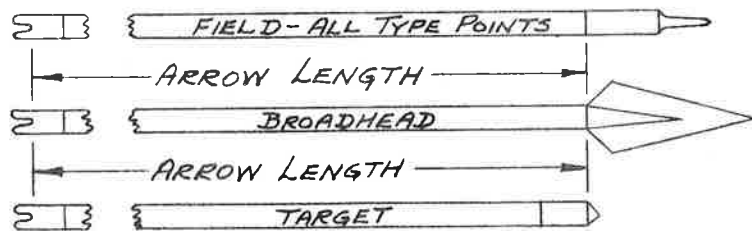

## GENERAL ORDERING INFORMATION

All prices are F.O.B. St. Louis, Mo. Please include sufficient postage. Excess postage will be refunded.

Terms are cash with order or C.O.D.

Prices and specifications are subject to change without notice. When ordering be sure to specify bow weight, length of draw, whether right or left handed and any other pertinent information.

When ordering arrows state bow weight and arrow length - see illustration. Where arrow length is different from draw length (distance to back of bow) state draw length also. Broadhead arrows should extend at least  $\frac{1}{2}$ " beyond back of bow in order to clear forefinger of bow hand.

ARROW LENGTH DETERMINATION

## SPIR-O-FLETCHING

What is it? What are its merits? Technically these questions should be answered at length, employing a bit of descriptive geometry and the theory of aerodynamics. But briefly, we may say this: SPIR-O-FLETCHING stands for true spiral fletching and is not to be confused with diagonal fletching, erroneously referred to as spiral fletching. The merits of SPIR-O-FLETCHING are these: arrows absolutely cannot "plane" in flight due to warp or broadhead misalignment; smaller and lower cropped feathers for the same guiding effect as other types of fletching; lower cropping means less fraying of feathers; uniform rotation of all arrows in flight; does not create greater "drag" than straight fletching.

# LINE-O-SITE

**"Moves the Target from Behind the Bow"**

The LINE-O-SITE is unique in design and simplicity and incorporates all the features most desired in a bow sight: light weight, easy but positive friction adjustment, no rattle, easily attached, fits snugly to back of any bow, available in plain lens, prism lens or post type sights.

The most revolutionary feature of the LINE-O-SITE is the use of a one, two or three degree prism mounted in such a manner as to project the target image horizontally, thereby compensating for lack of perpendicularity between sight and arrow due to width of bow limb, or to compensate for an anchor position which is not vertically beneath the aiming eye. These conditions are manifest when the regular sight is set as close as possible to the side of the bow and the resulting shot hits to the right of the mark, in the case of a right hander, or vice versa for the left hander. The use of the specially mounted prism (a one degree prism usually is sufficient) corrects this condition and therein lies the derivative of the name LINE-O-SITE. When no problem of alignment is experienced, the plain lens or post type sight should be used according to preference. Four, eight and twelve degree prisms are also available for vertical projection when needed for the longer ranges.

To apply LINE-O-SITE, cement to back of bow just above handle as shown. For a secure bond roughen surface of bow with sandpaper and apply TUFF BOND or 3M WEATHERSTRIP cement to felt pad on Slide Bar.

Press firmly into position and allow ample time for cement to set. To increase friction of Sight Mount on Slide Bar, pinch tabs of Sight Mount slightly closed with pliers. To increase friction of Lens Frame for horizontal adjustment, remove Lens Frame from Sight Mount and increase bend of Tension Spring. In cases where the LINE-O-SITE is supplied without the Tension Spring simply increase the bend along center of Sight Mount. To use Post Sight, insert stem of sight through holes of Sight Mount. A bead headed pin may also be used in the same manner as the Post Sight if so desired.

NOTE: Prisms are available in 1, 2, 3 degree lenses, mounted to project the target image horizontally; 4, 8, 12 degree lenses for vertical projection.

In cases where both horizontal and vertical projection is desired, prism Sight Lens may be rotated to desired position by removing Lens Frame from Sight and lightly spreading the frame apart to relieve friction on lens.

PRISM SELECTION: Each degree of prism will move the sight approximately  $\frac{1}{4}$ ".

### COMPLETE SIGHTS

**THE PROFESSIONALS**

In keeping with our policy of continuous and intensive research and experimentation, great strides have been made in the performance of HOYT PROFESSIONAL bows. Through the scientific combining of plastic, fiberglass and wood into bows with sound principles of design plus precision machining and the all important "know how" developed from years of experience, the new PROFESSIONALS are instruments of perfection.

The PROFESSIONALS are custom made to order and undergo rigid testing and inspection before leaving our plant. The PROFESSIONALS have gained for themselves the enviable reputation of brilliant performance characterized by their phenomenal cast, built-in accuracy, smooth draw and soft crisp action. Constancy of cast under varying climatic conditions and rugged durability are additional strong qualities of the PROFESSIONALS. Their beautiful contours lend a pleasingly graceful appearance to the eye.

**GUARANTEE:** Each PROFESSIONAL has a serial number and is accompanied by a registration card which must be filled out and mailed by the purchaser within ten days after date of purchase. Each PROFESSIONAL is guaranteed against faulty workmanship and materials. Unless bow shows evidence of misuse, free repairs or replacement will be made should failure occur during the first sixty days after purchase. Thereafter, adjustment will be made on an exchange basis whereby the owner will pay for the use he has had from the bow at the rate of 10% per month based on the purchase price or cost of repairs.

**THE PRO**

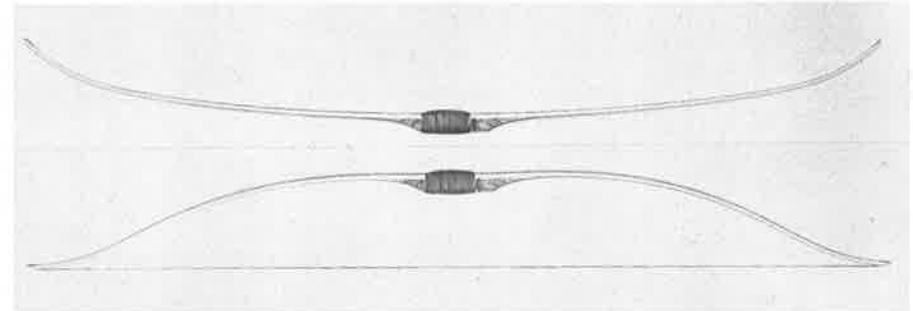

This is an improved and redesign of our famous Working Recurve model. The PRO has been completely re-engineered for even greater performance than ever before. The new PRO features an entirely new, scientifically developed, geometric deflex-Reflex design which produces high efficiency for unsurpassed cast plus lower stress of limb for greater service life. Additionally, deflex design increases accuracy through improved stability in the hand and contributes to greater ease of stringing. Another feature of the new PRO is the near center shot design with Folberth patented "cut away" section above arrow rest which permits full range, unobstructed sighting. Contoured for comfort, the pistol grip bow handle properly positions the bow hand. Lengths, 62", 66" and 69". Weights to 65 lbs.

BC-201WR—PRO ..... \$55.00

NOTE: 69" length is not available until further notice.

**THE CHAMP**

An improved semi-recurve design featuring moderately reflexed tips for improved cast and smoother action. Pistol grip handle with arrow rest built-in and arrow plate near center line of bow. The CHAMP is truly the all purpose bow. Lengths, 62" and 66". Weights to 70 lbs.

BC-200ML—CHAMP ..... \$42.00

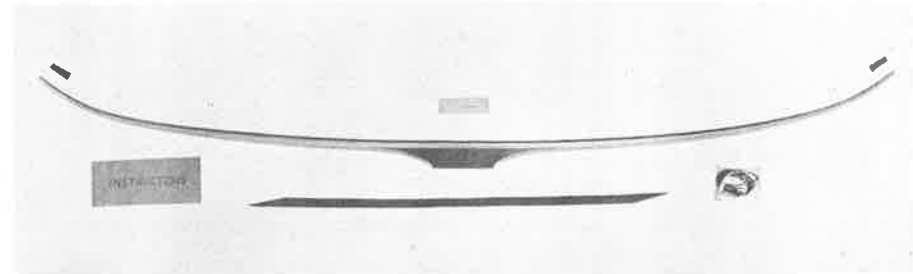

**THE EXPERT**

A fine utility bow of straight limb design. Possesses excellent shooting qualities and is rugged and tough. Has conventional handle design featuring built-in arrow rest. Lengths, 58", 62" and 66". Weights to 75 lbs.

BC-200SL ..... \$32.00

**COMP-BO-KIT**

Completely tillered — ready to shoot — requires only shaping the handle (cut to outline if desired) and adjusting the limbs for final balance. Precision made of fiberglass, plastic and wood. Nothing more to buy. Saves up to \$20.00 on the cost of a new bow. Corresponds in design and quality to our BC-200ML CHAMP. Money back guarantee against faulty materials or workmanship. Lengths, 62" and 66". Weights to 70 lbs.

BCK-200ML ..... \$29.50

**APOLLO  
TUBULAR STEEL BOW  
(Guaranteed for one year)**

The finest line of tubular metal bows yet to be engineered by England's leading manufacturer of tubular sporting equipment.

APOLLO bows are smooth and comfortable to shoot and have extremely flat trajectory. Available in four great models.

**SWALLOW** ..... **\$27.50**

Well suited for those using short arrows and for all women's rounds. 54" long with a draw weight of 21 lbs. at 22" and 24 lbs. at 24" draw.

**MERLIN** ..... **\$40.00**

A 58" bow for draw lengths to 26". Made in draw-weight groups 18-24 lbs. at 24" and 22-36 lbs. at 26" draw. Light in hand, fast.

**KESTRAL** ..... **\$40.00**

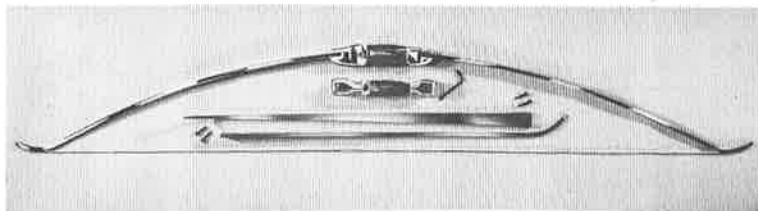

A 60" bow for draw lengths to 28". Available in draw-weight groups 32-38 lbs. at 26" and 36-42 lbs. at 28". A fast bow eminently suitable for the York Round and field archery.

**FALCON** ..... **\$40.00**

A 66" bow for draw lengths to 29". Made in draw-weight groups 35-43 lbs. at 26" and 39-47 lbs. at 28" draw. A superb target bow being steady and sweet shooting.

**GRIMES BOWS**

The original aluminum alloy bow. Has recurved and comfortable right or left handed take-down handle. Cast is excellent, action smooth. Built in three models.

- STANDARD REGULAR—Anodized dark green, 59", weights 26-67 lbs., 28" draw limit..... **\$31.50**
- HUNTER REGULAR—Anodized dark green, 54", weights 34-64 lbs., 27" draw limit..... **\$31.50**
- LIGHTWEIGHT—Anodized dark maroon, 52", weights 19-27 lbs., 26" draw limit..... **\$16.95**
- Deluxe finish on STANDARD and HUNTER, anodized Gold Tone, extra..... **\$ 2.00**

**LIMB SETS**

- Standard Regular ..... **\$15.50** Hunter Regular ..... **\$15.50**
- Standard Deluxe ..... **\$16.50** Hunter Deluxe ..... **\$16.50**

**HANDLES**

- Regular Finish ..... **\$15.75** Deluxe Finish ..... **\$16.75**

**BEAR BOWS**

The outstanding feature of the Bear line of bows is the successful combining of Fiberglas, which is used for all of the working components (face and back) of the limbs, and hard maple cores into a bow of high performance with longer life and no let-down. Available in four superb models. Each bow is registered and guaranteed.

**THE KODIAK  
\$49.50**

Custom - grade bow with saddle type handle, near center - shot design and smooth satin finish. Supplied with bowcase. Length 62" with 28" draw limit; lengths 64" and 66" with 30" draw limit; weights to 100 lbs.

**THE GRIZZLY  
\$39.50**

This popular all-around bow is outstanding for target, field, roving and hunting. Durable and hard hitting. Length 62", weights to 75 lbs., 28" draw limit.

**THE POLAR  
\$29.50**

A straight bow of unusually good shooting qualities, a direct result of its Fiberglas - wood construction. Length 64", weights to 75 lbs., 28" draw limit.

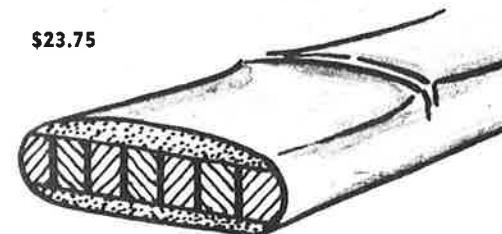

**THE CUB  
\$22.50**

A low priced bow incorporating the shooting qualities and durability that go hand in hand with Fiberglas facing and backing. Suitable for any use. Length 62", weights to 60 lbs., 28" draw limit.

**COMPAC BAMBOO BOWS**

**\$23.75**

Special 9-ply laminated Bamboo Bow is completely handmade. Manufactured by a skilled group of Japanese bowsmiths. Outstanding for smoothness of draw and safe action. 5'8" long, weight 25 lbs. to 60 lbs., 30" draw limit.

## Bows

### LEMONWOOD & HICKORY BOWS FOR SCHOOLS, COLLEGES, CAMPS AND CLUBS

Built of choice lemonwood or hickory in the efficient flat bow design, bows of this group have graceful lines, deep narrow leather handle, laminated riser, double looped string and flexible finish. State draw, length and bow weight.

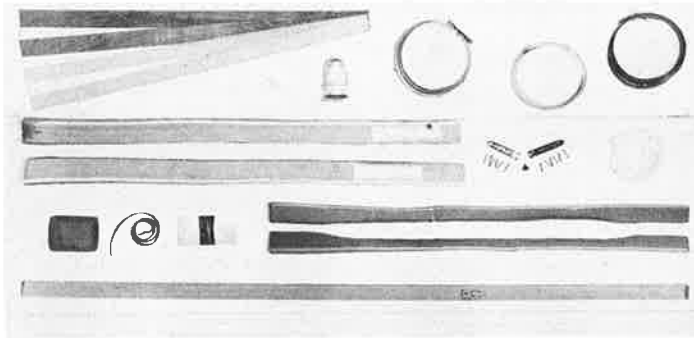

#### LEMONWOOD BOWS

260	RANGER—Fiber backed, 68", 40-55 lbs., for arrows 26" to 29".....	\$14.00
261	RANGER—Fiber backed, 64", 40-55 lbs., for arrows 22" to 26".....	\$14.00
262	COLLEGE—Fiber backed, 66", 20-45 lbs., for arrows 25" to 28".....	\$12.00
263	COLLEGE—Fiber backed, 63", 20-35 lbs., for arrows 20" to 26".....	\$12.00
264	MARKSMAN—Self back, 66", 20-40 lbs., for arrows 25" to 27".....	\$ 9.50
265	MARKSMAN—Self back, 63", 17-30 lbs., for arrows 20" to 25".....	\$ 6.50

#### HICKORY BOWS

270	RECURVED HICKORY—60", 20-30 lbs., for arrows 20" to 24".....	\$ 5.50
271	JUNIOR HICKORY—54", 10-20 lbs., for arrows to 20".....	\$ 3.50

### BOW MATERIALS

#### FACINGS AND BACKINGS

600	ULTRABAC—Five ply glass, length 36" per pair: per 1/4" of width.....	\$ .90
601	GLASSFACE—New, high modulus, high strength glass facing: per 1/4" of width.....	\$ .90
602	TOXFLIGHT FACING—5/64" x 36", per pair: 1/4" of width.....	\$ .50
603	TOXWOOD—All-Purpose Grade .08" x 35", per pair: 1/4", \$2.30; 1/2", \$2.60; 3/4", \$2.90; 2", \$3.20	
604	FIBER BACKING—1/2" x 36", white or black pair.....	\$ .75

#### MAPLE CORE LAMINATIONS

610	Clear hard maple, 5/16" x 1/2" or 2" x 35", pair.....	\$1.50
611	Maple core sanded to any desired thickness or taper from .04" to .25" thick, pair.....	\$2.50

#### HANDLE RISER BLOCKS

615	Accurately machined walnut with ends tapered and feathered for insertion beneath facing. 1/2", 3/4" or 2", wide, 1 3/8" deep, 14" long.....	\$2.25
-----	---	--------

#### YEW BILLETS

622	No. 2 quality, seasoned.....pair	\$6.00
623	No. 3 quality, seasoned.....pair	\$4.00

#### HANDLE MATERIALS

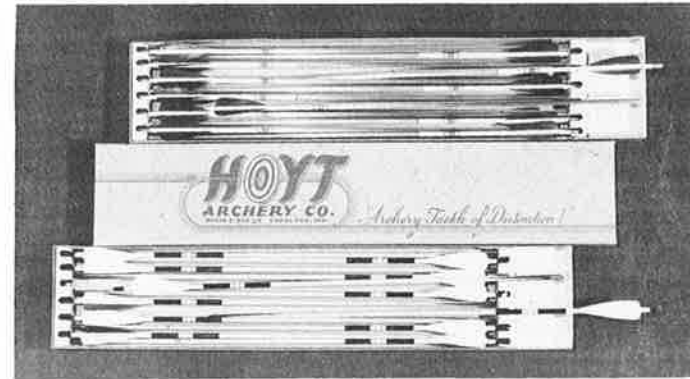

632	Leather, wrap type, 3/4" x 32", skived all edges, brown, with trim.....	\$ .65
633	Leather, skived all edges, 4" x 5".....	\$ .50
634	Plastic, 3/16" wide, brown or black. Per handle.....	\$ .25

#### BOW STRING MATERIALS

640	FORTISAN—white 4 oz. spool (when available).....	\$2.85
641	DACRON—white, 4 oz. spool, #333 (when available).....	\$2.85
642	ZAKON—white, 4 oz. spool, heavy or regular.....	\$2.50
650	Mystik DURA-SERV—The sensational new trouble free serving. Special 1/4" tape easily and quickly applied to loops and nocking point. Small package.....	\$ .25
	60 yd. roll.....	\$1.75
655	BOWSTRING WAX—special preparations, per cake.....	\$ .40

## Arrows

### TARGET ARROWS

Arrow Sets  
are attractively  
boxed

#### SUPER-X METAL ARROWS

SUPER-X's are made of 24SRT-X aluminum alloy shafting, the finest obtainable. 16 diameters and wall thicknesses make it possible to match any weight bow. Precision fletched with our special SPIR-O-FLETCHED 2 1/2" or 3 1/2" vanes for greater accuracy. Choice of Mid-Nox, Speed Nock or Sure Nock. Numbered. Crested and fletched to your specifications if desired.

TA-100—Super-X, Metal Arrow ..... Dozen \$27.00

Four feather SPIR-O-FLETCHING \$1.50 per dozen extra

### CHAMPION and EXPERT CEDAR ARROWS TOURNAMENT QUALITY

CHAMPIONS are the elite of the wooden arrow line. Precision made of highly select Port Orford Cedar. Tolerances are: 5 grains weight, .05" spine. Sizes 5/16" or 9/32", tapered shafts to fit your bow 2 1/2" or 3 1/2" SPIR-O-FLETCHING Numbered. Choice of Mid-Nox, Speed Nock or Sure Nock. Crested to your order.

TC-100 CHAMPION, Custom ..... Dozen \$12.00

TC-102 EXPERT, Similar to CHAMPION except parallel shafts, stock crested and matched in spine only ..... Dozen \$10.00

Four feather SPIR-O-FLETCHING \$1.50 per dozen extra

White or dyed white fletching \$1.00 per dozen extra

### ARROWS FOR SCHOOLS, COLLEGES AND CAMPS

Sturdy, well-made arrows of Port Orford Cedar. Extremely accurate and SPIR-O-FLETCHED. Steel piles and Speed Nock, stock crested. Sizes 5/16" or 9/32".

TC-106 SCHOLAR, 22" to 28" in inch graduations..... Dozen \$8.00

TC-108 TYRO, 18", 21", 24", 26" and 28"..... Dozen \$6.00

SEE PAGE 1 FOR ARROW LENGTH DETERMINATION.

**FIELD AND HUNTING ARROWS**

Arrow Sets  
are attractively  
boxed

**SUPER-X METAL FIELD ARROWS**

Similar in all respects to the SUPER-X target arrows but SPIR-O-FLETCHED with 5" low cut vanes. Fitted with Speed Nock or Sure Nock and choice of target pile, Zwickey or Hill field point, or broadhead. Full crested as desired. Numbered.

- FA-100B SUPER-X, Broadhead Arrow ..... Dozen **\$30.00**
- FA-100 SUPER-X, Field Arrow (add \$1.00 for field points)..... Dozen **\$28.00**
- Four feather SPIR-O-FLETCHING **\$1.50** per dozen extra
- White or dyed white fletching **\$1.00** per dozen extra

**RANGER AND SCOUTER CEDAR FIELD ARROWS**  
TOURNAMENT GRADE

The RANGER line is the ultimate in custom-grade field arrow design. Highest quality Port Orford Cedar shafts, Tapered. Sizes 5/16", 11/32" or 3/8", closely matched for weight and spine. 5" SPIR-O-FLETCHING insures accurate, non-planing flight. Numbered and brightly crested as desired. Fitted with Speed Nock or Sure Nock and choice of any type point listed under ARROW MATERIALS Please specify preference.

- FC-100 RANGER, Field Arrow with standard target, blunt or field points..... Dozen **\$12.00**
- FC-100B without points (add cost of special point selected: Broadheads, Zwickey's or Hill's field or blunt points) Base price..... Dozen **\$11.50**
- FC-102 SCOUTER, Field Arrow (similar to RANGER except parallel shafts, stock crested and matched in spine only)..... Dozen **\$10.00**
- FC-102B SCOUTER, without points (add cost of special point selected as in FC-100B) Base price..... Dozen **\$ 9.50**
- Four feather SPIR-O-FLETCHING **\$1.50** per dozen extra
- White or dyed white fletching **\$1.00** per dozen extra
- Color dipped shafts in white, yellow, red, orange or olive drab, \$ .75 per dozen extra; no charge when crest is omitted.

**ROVER AND ROVETEER CEDAR FIELD ARROWS**  
INEXPENSIVE - EXPENDABLE - ACCURATE

For truly low cost, expendable cedar arrows of great accuracy for use in practice, roving or hunting, better values have never been offered. SPIR-O-FLETCHED and fitted with Speed Nock. Neatly crested. Sizes 5/16", 11/32" or 3/8" Choice of any type point listed under ARROW MATERIALS. Please specify type of point. Stock crested and fletched only.

- FC-106 ROVER, Field Arrow with standard target or blunt point, 3 1/2" vanes..... Dozen **\$8.00**
- FC-106B ROVER, without points (add cost of special point selected: Broadheads, Hill's or Zwickey's field or blunt points) 5" vanes. Base price..... Dozen **\$8.25**
- FC-108 ROVETEER, Field Arrow (similar to FC-106 ROVER except not crested) 3 1/2" vanes..... Dozen **\$6.00**
- FC-108B ROVETEER, without points (add cost of special point selected as in FC-106B) 5" vanes. Base price..... Dozen **\$6.25**

SEE PAGE I FOR ARROW LENGTH DETERMINATION.

**FISH ARROWS AND REEL**

Available in either 5/16" aluminum shaft or 3/8" cedar shaft, 30" long. Choice of Zwickey flexible barb fish point or barbed broadhead. Either plain or fletched. Fletching is unnecessary when line is used.

- FC-110 Cedar Fish Arrow ..... Each **\$1.35**
- FC-110F Cedar Fish Arrow, fletched ..... Each **\$1.65**
- FA-110 Aluminum Fish Arrow ..... Each **\$3.25**
- FA-110F Aluminum Fish Arrow, fletched ..... Each **\$3.55**
- BR Bow Reel and 60 feet of line ..... Each **\$3.95**

**FLU-FLU AERIAL ARROWS**

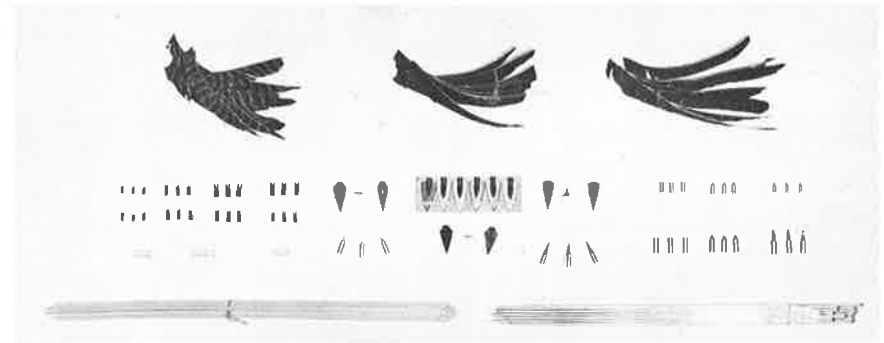

Large, Spirally wrapped feathers for tree and aerial shooting. Has extreme range of only about 80 yards but full hitting power up to 20 yards.

- FC-120 FLU-FLU, target, blunt or field point ..... Each **\$1.10**

**ARROW RECONDITIONING SERVICE**

For a complete overhaul job send us your arrows. REFLETCHED and RECRESTED to your specifications. STRAIGHTENED, POLISHED, RENOCKED and NUMBERED.  
**\$8.00 PER DOZEN**

**ARROW MATERIALS**

**ARROW SHAFTS**

NOTE: All prices of wood shafts include FINISH SANDING. When ordering matched shafts or shafts tenoned for points and nocks please state bow weight, arrow length and type of point. Add \$ .50 per dozen for tenoning for points and nocks.

- 700 24SRT-X ALUMINUM SHAFTS. Fitted with hardened steel points and swedged for nocks ..... Doz. **\$20.00**
- 701 FORGEWOODS (finest grade) Footed ..... Doz. **\$11.50**
- 702 FORGEWOODS Unfooted ..... Doz. **\$ 9.50**
- 703 BATTLESCHAFTS (work-arrow grade) Footed ..... Doz. **\$ 8.00**
- 704 BATTLESCHAFTS Unfooted ..... Doz. **\$ 6.50**
- 705 PORT ORFORD CEDAR SHAFTS,, select grade, parallel, 29 1/2" long. Sizes 9/32", 5/16", 11/32", 3/8" ..... Per 100 **\$11.00** Doz. **\$ 1.50**
- 706 MATCHED P.O.C. shafts, 5 grains in wt. and .05" spine..... Doz. **\$ 3.00**

# Arrow Materials

## ARROW POINTS

NOTE: Ferrule sizes of tapered hole points are given as inside diameter. All others are O. D.

710	STEEL PILES, standard. 1/4", 9/32", 11/32".....	Doz.	\$ .50
711	STEEL BLUNTS, standard. 5/16", 11/32".....	Doz.	\$ .50
712	STEEL PILES, special weights: 11/32" x 100, 125 grs.; 3/8" x 125, 150 grs.; 13/32" x 125, 150 grs.....	Doz.	\$ .70
713	STEEL BLUNTS in same sizes and weights as 712 plus 5/16" x 100 grs.....	Doz.	\$ .70
714	STEEL FIELD POINTS, 11/32" x 100 grs.; 3/8" x 125 grs.; 13/32" x 125, 150 grs.....	Doz.	\$ .90
715	HILL'S FIELD POINT, tapered hole, 9/32" x 100 grs.; 5/16" x 100 grs.; 11/32" x 125 grs.....	Doz.	\$1.20
716	HILL'S HOLLOW POINT, blunt tapered hole. Very effective roving and small game point. Same sizes and wts. as 715.....	Doz.	\$1.20
717	ZWICKEY FIELD POINT, tapered hole, nickel plated. 9/32" x 110 grs.; 5/16" x 110 grs.; 11/32" x 125 grs., 11/32" x 140 grs.....	Doz.	\$1.50
718	ZWICKEY FISH POINT with spring barb.....	Each	\$ .75
719	As above but double barb.....	Each	\$1.00

## BROADHEADS

NOTE: All ferrule sizes are given as inside diameters.

730	STANDARD, 2 edge, tapered hole. 11/32" x 1 1/8" W. x 120 grs.....	Doz.	\$3.65
731	HILL'S HORNETS, 3 blade tapered hole. Sizes: 9/32" x 100 grs.; 5/16" x 100 grs.; 5/16" x 125 grs.; 11/32" x 125 grs.....	Doz.	\$3.75
732	BODKIN, 3 blade tapered hole. Sizes: 5/16" x 100 grs.; 11/32" x 125 grs.....	Doz.	\$3.75
733	ACE, 2 edge, parallel hole. Sizes: 5/16" x 1" W. x 135 grs.; 11/32" x 1 1/8" W. x 175 grs.....	Doz.	\$3.75
734	HELIX, 2 edge, tapered hole. 11/32" x 1" W. x 145 grs.....	Doz.	\$4.50
735	BLACK DIAMOND - when available		

## PLASTIC NOCKS

740	SPEED NOCKS, indexed. 1/4", 9/32", 5/16", 11/32". Colors: red, white, blue, yellow, black green.....	Doz.	\$ .45
741	MID-NOX, 3/16", 7/32", 1/4", 9/32", 5/16". Colors according to availability.....	Doz. \$ .60 Per 100	\$4.00
742	SURE NOCK, unique design provides quicker and surer nocking, increases string life minimizes arrow pinch and eliminates possibility of bow being shot empty. Tapered hole. Sizes: 7/32", 1/4", 9/32", 5/16". Red only.....	Doz. \$ .75 Per 100	\$5.00

## TURKEY FEATHERS

SELECT — FULL LENGTH — GROUND BASE

	Per Doz.	Per 100
750 Natural Barred.....	\$ .50	\$2.25
