

Make a Basic Emergency Supply Kit

A Go Bag is a bag that has everything you need to help keep you safe and well during an emergency. When you have an emergency or must evacuate your home, you can grab your bag and ---- GO! When you have just minutes to evacuate, you won't have time to think about what you should pack to survive the days to come, so the time to prepare for your family's safety is now. The actual bag can be anything that will carry what you will need. The type of bag that you use isn't as important as the items inside the bag. Remember that if you must evacuate to your safe place, it will not have the important items you may want or need. It is best to take those items with you!

Those that live in mobile homes should always be ready to leave their homes during severe weather

With the right gear in your go bag, you can ALWAYS BE READY for what comes your way. Remember to keep your batteries fresh and medications up-to-date, and reevaluate your bag's contents each season to stay prepared.

- Basic First Aid Kit, extra medication / medical items
- Extra Cash (suggested: small bills)
- Spare Change of Clothes
- Spare car / house key
- Family and emergency contact info (phone and email)
- Food, water, snacks etc
- Pet Supplies (collars, leash, food, water, bowl)
- Copies of personal documents in water tight bag (insurance papers, birth certificate etc)
- Battery – powdered or hand cranked radio (NOAA weather radio if possible)
- Cell phone, charger(s), flashlight, extra batteries
- Sanitation, personal hygiene items, blankets
- Any other important items that you may need.

By preparing now you will be less stressed during a severe weather emergency! – Marengo County E-911
