

## **EENT Workshop**

Denise Ramponi, DNP, CRNP, FAEN

### **Objectives**

1. Describe the assessment findings and management principles in eye conditions.
2. Describe the assessment findings and management principles in ear and nose conditions.
3. Describe the assessment findings and management principles in throat conditions

### **Outline**

#### Eyes

##### Eye Exam

External exam

Visual acuity

Tonometer

General principles

##### Eye disorders

Subconjunctival hemorrhage

Corneal abrasions

Corneal ulcers

Corneal Foreign bodies

Glue substances

Brow and Lid lacerations

Blow out fractures

Globe rupture

Hyphema

Burns

Chemical: acid vs. alkali

Thermal

UV burns

Acute closed angle glaucoma

Conjunctivitis

Bacterial, suppurative

Allergic

Viral

Hordeolum

Chalazion

Blepharitis

Herpes simplex

Herpes zoster

Periorbital cellulitis

Orbital cellulitis

Central retinal vein occlusion

Central retinal artery occlusion

Detached retina

Amaurosis Fugax

Ears

Tympanic membrane perforation

Foreign bodies

Otitis externa

Auricular cellulitis

Auricular hematoma

## Nose

Anterior & posterior epistaxis

Nasal packing

Fractures

Foreign bodies

Septal hematoma

Septal perforation

Septal deviation

## Throat

Epiglottitis

Foreign bodies

Retropharyngeal abscess

Peritonsillar abscess

Ludwig's angina
