

# *Southeastern Pennsylvania Orchid Society* **International Orchid Show and Sale**

## **EXHIBITS**

### **FLOOR EXHIBITS:**

Most exhibits will be against a perimeter wall that has been draped to 8' high with green cloth. Exhibits will be 8' - 16' wide and they will be separated by "wings" of the same green drape. Your exhibit depth (back to front) should be a minimum of 3' and a maximum of 6'. They will, therefore, measure between 24 and 96 square feet.

Most any material will suffice as a base ... sod, bark, wood chips, moss, gravel, pavers, fabric etc. are appropriate. **Water features are encouraged.** In general, exhibit height should be kept to 8'. However, plants or props in the rear of an exhibit may extend to 10' high.

The room is evenly and brightly lit from above with new LED lights. If you wish to create dramatic effects or highlight feature plants, please bring small spotlights.

**All exhibit areas will have power. Any exhibitor (society or vendor) that intends to use electricity in their exhibit should bring one 25', multi plug, UL listed extension cord which must be in good condition (i.e. non-frayed and free of cuts).**

### **TABLETOPS:**

A limited number are available by pre-arrangement. SEPOS will provide green table covers, a green backdrop and plant placement area of approx. 15 square feet on multiple levels.

**PLEASE CALL WITH QUESTIONS OR SPECIAL REQUESTS**
