

SOUTHEAST ASSET MANAGEMENT SYMPOSIUM SEAMS 2016

Lake Lanier Islands Resort Buford, GA

April 29-30, 2016

PLATINUM SPONSOR:

COHESIVE
solutions

The SMRP Georgia Chapter is proud to host the 1st Annual Southeast Asset Management Symposium (SEAMS). This a two day event for maintenance, reliability and operations personnel in the Southeast US to learn, grow and network in their profession. Attendees will have the opportunity to learn as practitioners and experts share best practices and innovative methods and techniques.

The audience for SEAMS 2016 is directors, managers, engineers, technicians and supervisors in maintenance and reliability based positions.

After a morning panel discussion attendees will create their own course of study by selecting 45 minute presentations from multiple tracks as. Solution Providers and Vendors will be on hand throughout the symposium schedule to showcase the latest in technology and industry services .

“This is a great event to bring your team for networking, group learning and team building. Let us help you host your annual meeting of maintenance stakeholders from across the region.”

- John Holmes

SMRP GA Chapter Chair

Doc Palmer, the renowned authority on maintenance planning and scheduling will deliver a keynote presentation Friday evening of the conference, “Leaping Forward Using Deming Principles in Asset Management.”

Doc Palmer, the author of McGraw-Hill’s Maintenance Planning and Scheduling Handbook, shows how the 14 Deming principles apply to maintenance and reliability.

Conference Events

- Keynote Speakers

Who:

The audience for SEAMS is managers, engineers, technicians and supervisors in maintenance and reliability based positions.

Location:

The conference will be held at the Lake Lanier Islands Resort in Buford, Georgia.

The resort is located north of Downtown Atlanta on Lake Sidney Lanier. The location is easily accessible from all major highways coming from the Carolinas, Tennessee, Alabama and Florida. Atlanta Hartsfield Airport (ATL) is approximately one hour south.

Bring your spouse and children, there are plenty of activities right on the resort grounds to have loads of fun while you are learning!

The symposium tracks are based on the Society for Maintenance and Reliability Professionals (SMRP) Body of Knowledge (BoK) essential to the success of maintenance and reliability professionals:

- Business management
- Manufacturing process reliability
- Equipment reliability
- Organization and leadership
- Work management

In addition thought leading and innovative presentations will be included as well as timely information on topics such as ISO 55000 and the Industrial Internet of Things.
