

Good morning! Two-plus weeks remaining in the regular season. Seems like it is flying by....or I am just getting really old.

In today's clip, we have two illegal screens. The first is off ball and occurs on the matchup that T moving to C is officiating. He has a great look at the play and gets the moving screen right. The second illegal screen in the clip is on the defender of the ball handler in T's primary. T has ball handler/defender AND gets the illegal screen. GREAT officiating by T on this play. The C has two matchups in his own primary near the low block so really doesn't have a good look at what happened on the screen.

Working our PCA hard by moving to get a good look at the matchup we are officiating helps in getting angles and good looks at screening as well. ALL of us can tend to set the feet and seem planted in cement from time to time. THINK about moving to get good looks.

Think also about an off-ball screen AND the ball handler/defender ALL in one PCA when the partner(s) have plenty going on in their own PCA.....that's for another day!

Take a look at the clip by clicking [here](#).

Have a great game today!

Tim
