

Name \_\_\_\_\_

Reflect on your third quarter reading life. Consider some of the following questions:

Fluency: After reviewing your SSR log, did you improve your reading fluency (speed)? Why or why not?

Why do you think some days you were able to read more pages and some days less even in the same book with the same amount of time? What could you do to push yourself to read more and more quickly?

Independent reading:

Did you enjoy the books you read during SSR? Why or why not?

Did you always bring a book? Why or why not?

What could you do to bring more enjoyment into your reading life? How can I help you with this?

How was it to add a summary after reading? Did it make you stay more engaged in the reading? Did it help you remember what you just read? Did you feel it was unnecessary? Explain.

Any other thoughts on reading are welcome!!
