

My name is Ditas Lagmay, a mother of a sweet young girl. I am a Registered Midwife (Philippines). I have been babysitting and have experience in Child Care for 13 years. I have a Certificate in CPR & First Aid.

My diverse experience with kids, witnessed their day to day routine, activities and countless play dates has helped me understand the children better. I believed that working with the kids is not just my heart but also my natural gift.

On my free time, I like to go out for a walk with my husband and daughter. I like reading books and cooking as well.
