180° , 130° , 120° .**

**PC H connector**

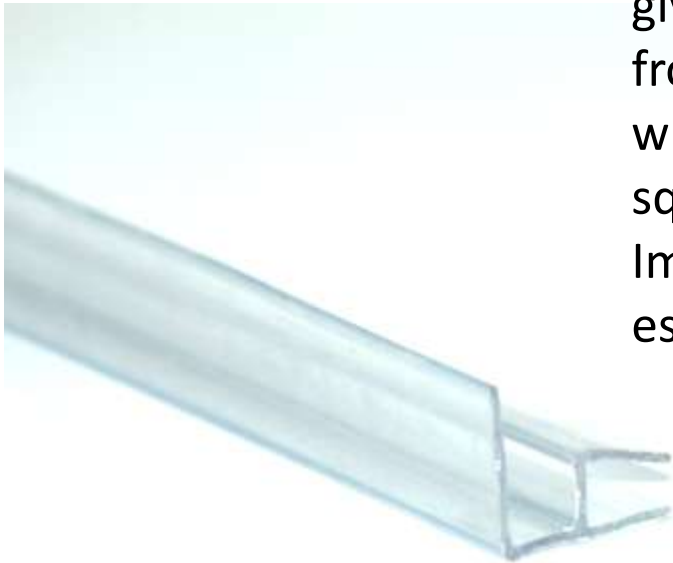

**(8mm) length: 5800mm/11800mm/ according to customer's demand.**

**PC H connector**

**(10mm) length: 5800mm/11800mm/ according to customer's demand. PC H connector**

These profiles are intended for coupling angle joints of glass panels. Angle polycarbonate profiles give aesthetical completion of the glass curtain from the glass panels because they ideally coincide with them in appearance . Besides they provide square coupling of rigid glass panels against wind. Imperceptible transparent angle profiles are especially popular.

*Your partner for success*

As a result of our products' high quality, competitive price and large selection, Veranda PC profiles sell well both at home and abroad. We sincerely invite interested parties to contact us and all enquiries will receive our closest attention.
