By giving to this annual event, you will be supporting the producers in the entire western region. The conference furthers our purpose by providing information on subjects that address farmer needs, providing a networking opportunity with fellow farmers, and bringing their product suppliers together under one roof. The conference is used to educate farmers on new research and developments that will help them in their day-to-day operations. The conference is the forum for open discussion and provides a stage for voting on important issues that will affect the stability and growth of organic dairy farming.

Thank you for your consideration.

Richard H. Mathews, WODPA Executive Director
