Hi there,

The fall semester is coming quickly. If you need additional resources to help you pay for college-related expenses such as tuition, books, housing, meals, or transportation this semester, you have options.

We've searched through the best lenders, and found the best private student loan options for the fall semester at .

[Check out your personalized options here!](#)

When comparing loans, here are some things to compare in order to choose the option that's best for you:

- **Offered APR** - Interest rates will depend on many factors, including market conditions, your credit, the credit of your cosigner, and more.
- **Payback terms** - Pay special attention to the payback terms that match your unique situation, which would include deferment.
- **Monthly payments** - Many loans offer different monthly payment amounts, so pay close attention to find a loan you can afford.
- **Cosigners** - Not all student loans require cosigners, however applying with a credit-worthy cosigner is a great way to reduce your total loan cost.
- **The total cost of the loan** - Remember that just because one loan has lower monthly payments does not mean that the total cost of the loan is less expensive.

Hope you have a great summer!
