Break

November 30 Interim grades end

December 24-January 1- Winter
Break

Reminders

Zanesville Community High School wants you to be aware of any cancellations or delays to our school day due to weather.

We do not let students out early due to weather- if you as the parent want to come get your child that is up to you.

We will announce cancellations and delays on WHIZ-TV. If our sponsor school Zanesville City Closes then we close.

Breakfast is not offered on 2 hour delay days due to students receiving their lunch one hour after we start, so please plan accordingly.

Ohio End of Course Testing is coming in December!

Keep your eyes out

Each student will be receiving a testing schedule in the mail for the December testing. Remember these tests are **extremely important** because they give the students the graduation points they need to graduate!

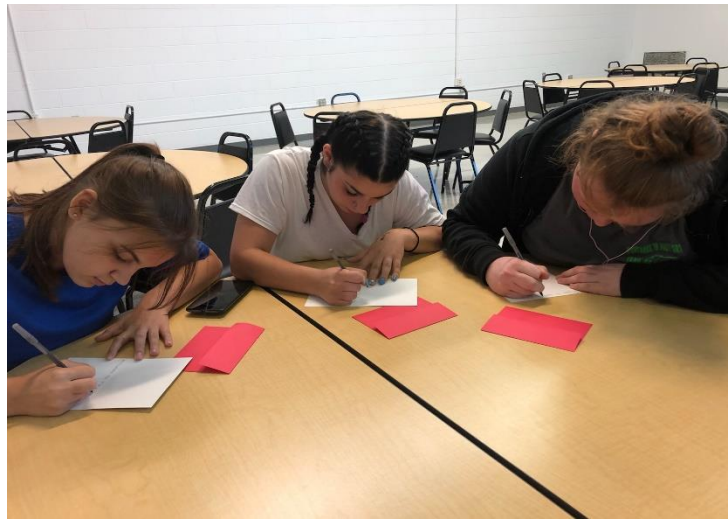

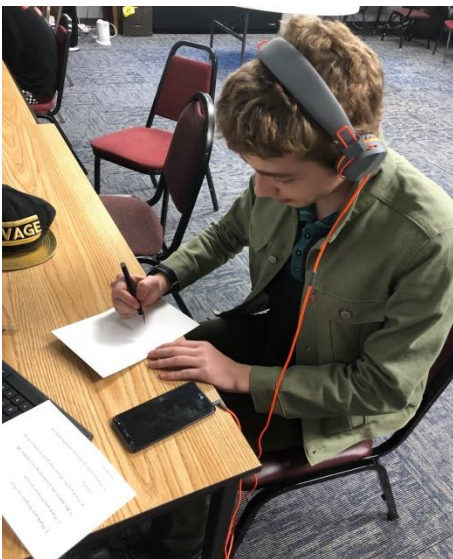

Can Food Drive

We are collecting food for Salvation Army and Christ Table for the upcoming holidays. Each room is in a competition to bring in the most food items to win a **PIZZA PARTY!**

Thank you for your donations

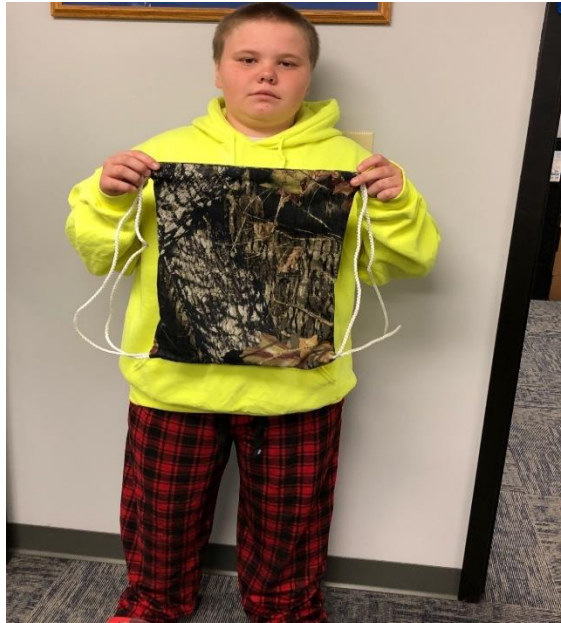

Honor Flight – Mail Call

Zanesville Community High School students participated in mail call for Honor Flight. Honor Flight is for our senior veterans; who served during the WWII, Korean and Vietnam years. Over 160 cards went out to our service personnel; students wrote poems, drew pictures and poured their hearts out. The veterans get these cards during their flight, just like mail call, while going to see the memorials dedicated in their honor.

Learning to Sew

Jenny's room is making backpacks, the students are enjoying learning to sew and make their own items to take home.

Students are creating blankets and warm thoughts!

Trina's room is making blankets to donate to local nursing homes. Students are having a great time giving back to the Community!

Zanesville Community is growing.....

Our Urban Garden that is. Students have spent time putting their garden together, planting and watering vegetables and herbs. New sprouts are already growing! Students are also caring for a variety of clean air plants. Students have to investigate on how much water and sunlight each type of plant needs to thrive. We are looking forward to eating all the items we grow!
