

The Metro Detroit Fire Inspector's Society is sponsoring a 3-Day of Fire Sprinkler Training Seminar being presented by the...

NFSA

NATIONAL FIRE SPRINKLER ASSOCIATION
The Voice of the Fire Sprinkler Industry

Wed. thru Fri. November 6-8, 2019

Course Descriptions: All courses run from 8:00 am - 5:00 pm

DAY 1:

Hydraulics for Fire Protection: Hydraulic calculations are the foundation for supplying water-based fire protection systems with the appropriate amount of water. This seminar covers the procedures for hydraulic calculations in accordance with NFPA 13. The equations, principles and process will be reviewed in detail including selecting a design method along with finding the remote area and calculating flows and pressures. This program can be advantageous to those responsible for performing the hydraulic calculations as well as those who review them.

DAY 2:

Pumps for Fire Protection: Utilizing NFPA 20, Standard for the Installation of Stationary Fire Pumps for Fire Protection, this one-day program guides the participant through the basic operating principles of fire pump, the requirements for the various components that make up a fire pump package and the requirements for acceptance testing for the pump to ensure proper operation.

DAY 3:

Sprinkler Installation Requirements: There are hundreds of types of sprinklers in use today. Determining where to locate them can be a complex task. They need to be spaced properly and installed in specific locations to ensure coverage of the protected area and located far enough away from obstructions to ensure that the spray pattern can adequately develop and control or suppress a fire. The rules that govern this complex matrix of decisions are found in Chapter 8 of NFPA 13 on Installation Requirements. This fast paced and interactive seminar will guide the participant through series of decisions and requirements that lead to compliance with NFPA 13 and ensure the system will operate properly when needed. Attendees are encouraged to bring a copy of the NFPA 13 with them.

EARLY BIRD PRICE FOR THE FIRST 25, FULL 3-DAY REGISTRATIONS

\$350 per PERSON (w/ full payment received)

ALL CLASSES LIMITED TO 40 PEOPLE

Course Location:
Brighton Area Fire Authority - Station 32
1580 S. Old US-23 Brighton, MI 48114
