The following reports and manuals are on file at the Board of Pilotage Commissioners Office, 2911 Second Avenue, Seattle, WA 98121. They are too substantial to reproduce for purposes of this report.

Summaries of Dispatch Records

Quarterly Earnings Reports from Pilots

By-laws and Operating Rules (Puget Sound District)

Oil Tanker Movement Reports (Puget Sound District)

# 1 FOREWORD

*The Board of Pilotage Commissioners was created by the 1935 Legislature to regulate state-licensed marine pilots. Its responsibilities include enforcing pilot and public adherence to the Pilotage Act, setting annual pilotage service rates, administering testing, training and licensing of marine pilots, and establishing standards for reporting and investigating incidents involving state-piloted vessels.*

## Shipping Activity in Washington State

The Puget Sound Pilots handled a total of 7241 assignments in 2002, down 39 from the previous year. Based on an average of 51.07 pilots, each pilot handled 142 assignments. The volume of shipping traffic in Puget Sound has declined over the past three years, from a high of 8254 assignments in 2000. Tanker traffic in Puget Sound decreased by 2.4% in number of movements and decreased 6% in gross tonnage over last year.

The Grays Harbor Pilots handled a total of 121 pilotage assignments in 2002, 17 more than the previous year. A new pilot trainee began his training program.

## 2002 Tariff Hearings

The Board increased the target net income for Puget Sound Pilots to \$198,965. To meet the anticipated increase in expenses and income, the tariff was raised by 13.19% in all categories except transportation.

The only increase to the Grays Harbor tariff was an increase of \$39 to the Pension Charge category.

## District Pilot Examinations

No examination was given in either district this year.

## New Legislation and Regulations

There was no new activity affecting pilotage this year.

## 2 LICENSED PILOTS

*The Board issues licenses to pilots after they qualify for and pass written and oral examinations and successfully complete a training program established by the Board. Licenses are renewed annually after passing a physical examination.*
