

In Pursuit of Orthopaedic Excellence? Time to Rev Your Engines! The Joint Commission Advanced Certification in Total Hip and Total Knee

April 1st, 2016

The Joint Commission is now accepting applications for their new Advanced Certification in Total Hip and Total Knee for Joint Commission accredited hospitals, critical access hospitals and ambulatory surgery centers.

This new certification focuses on:

- ✓ High quality healthcare with an emphasis on patient safety
- ✓ The transitions of care for patients undergoing a total joint replacement
- ✓ Reviewing the procedures associated with the orthopaedic consultation, pre-operative, intraoperative and post-surgical orthopaedic surgeon follow up care

The benefits and outcomes of achieving the advanced certification are¹:

- ✓ Improved patient outcomes over time through performance measurement
- ✓ Increased patient volumes through referrals
- ✓ Attraction and retention of highly competent staff
- ✓ Differentiation of your organization's program from others in your market

At MF & A, LLC, we have a flawless record in successfully preparing Hospitals for the Joint Commission Disease Specific Care Certification. Our knowledge and expertise will prepare you for the new Advanced Certification in Total Hip and Total Knee.

Contact Marcia for a complimentary webinar to discuss how we can prepare for the Joint Commission's Advanced Certification in Total Hip and Total Knee Replacement.
