

PRODUCT DATA SHEET

DIESEL FUEL ANTI-GEL – CONCENTRATED FUEL ADDITIVE

DESCRIPTION

Diesel Fuel Anti-Gel is for diesel and all grades of heating fuel oil. Reduce your pour points in your engines and boilers to keep them flowing during cold weather. It also modifies the shape and structure of wax crystals as they form in the cold oil, preventing the clogging of lines and filters.

FEATURES

- **STABILIZERS FUEL**
- **REDUCES GELLING**
- **ELIMINATES THE NEED FOR TANK HEATERS**

USE AND DIRECTIONS

All fuel grades: Add 12 ounces per 150 gallons of fuel. This lowers the pour point of the fuel by 20 degrees F. Extra treatment may lower the pour point by several more degrees.
