### **Mission Statement**

The America Cup, Inc. is a 501(c)(3) non-profit organization that provides program support to groups in need of the rehabilitation properties that fly fishing can provide and produces competitive and amateur fishing events at national and international levels. For many years we have provided outstanding fishing programs to military veterans and others in crisis. We utilize historic locations and iconic fishing destinations to enhance the experience of our guests being instructed by top anglers in the country and world. Progressive methods are taught so guests may return to their own home waters and catch with their family and friends. We make our guests "able" to go fishing with enjoyment.

### **Cast – Lead – Follow**

**Cast** yourself away from the life's trappings. **Lead** others to the water. **Follow** the water to peace, tranquility, joy, adventure & companionship. Supporting The America Cup CLF Cast-Lead-Follow programs provides rehabilitation value to these brave men and women through fly fishing and companionship.

This CLF Programs are hosted through an ongoing partnership between The America Cup and area river ranch owners. Guests are offered an opportunity to get out on the water with top anglers and other supporters of The America Cup. The event is 3 days on a Colorado river, where each guest and supporter will be joined by a top angler for a day of learning and fishing on the river. The local area will be providing lodging, and food, for the event at their property, where the trout lay nearby along the banks.

Led by John Knight: The America Cup, USA Bass Team Manager, International Organizer US Angling Confederation, and CIPS Vice President. [jwk@vail.net](mailto:jwk@vail.net) | 970-376-5703 | <http://www.theamericacup.org>
