

80th Annual West Branch Feeder Cattle Sale
Tuesday, October 22nd, 2024
12:00 Noon (EST)
1673 S. Fairview Rd, West Branch, Michigan

As summer starts a slow wind down, many of us are putting in the last bit of hay, chopping corn and preparing for the upcoming change in seasons. This includes selection of cattle for the upcoming **2024 West Branch Feeder Cattle Sale** where we will be offering approximately 650 head of high-quality feeder calves. **All** calves will be vaccinated and boosted for IBR, BVD, PI3, BRSV, Haemophilus, Pasteurella and a 7-way clostridial. Products used are Boehringer Ingelheim's Triangle 4 + PH/K, Pyramid 5 + Presponse SQ and Bac Vac 7/SOMNUS (or due to availability issues, ultrabac 7 Somubac from Zoetis).

As in previous years, **ALL** calves will be weaned a minimum of 30 days prior to the sale and are electronically identified. Most will be dewormed; many will be Age and Source verified and scored using IGS's Feeder Profit Calculator.

The sale will be broadcast and phone bidding will be available. More details will be provided on our website.

A website has been established for the West Branch Association at www.wbfeederalfsale.com. Videos and information on a majority of the calves will be available on the site in early October.

Mark your calendar now- we look forward to seeing you at the sale.

Thank you for your past and future interest in the West Branch Sale.

Questions should be directed to:

- Andy Katterman at 989-387-2976 or
- Marty Galbraith at 989-370-6200.
