

FOR IMMEDIATE RELEASE

03/16/2020 (1600)

The Missouri Society for Respiratory Care (MoSRC) has been watching current recommendations from the WHO and CDC on the coronavirus (COVID-19). We also realize that many of you have travel restrictions from your employer and/or are being asked to work due to increased census. **For these reasons the MoSRC is postponing the Annual Conference and Business Meeting until August 12-14.** We plan on moving all registrations to the August conference. If you need to request a refund please use the following link: <http://www.mosrc.org/contact-us.html> . We are excited about this opportunity in the late summer. Having the conference at the lake in the late summer will be a great time to celebrate humanity surviving the latest viral apocalypse! Come celebrate and enjoy your time at the lake this summer! Please do not make any room reservations until after March 25th as the resort is currently busy planning many details for our next conference. Thank you for providing excellent respiratory care to patients in MO!

Thank You,

Christopher Cox

President, Missouri Society for Respiratory Care
